Intro

The following describes the key features of kippy by showing how a typical system would be set up from start to end.

Also, when you login, videos show you how to get started.

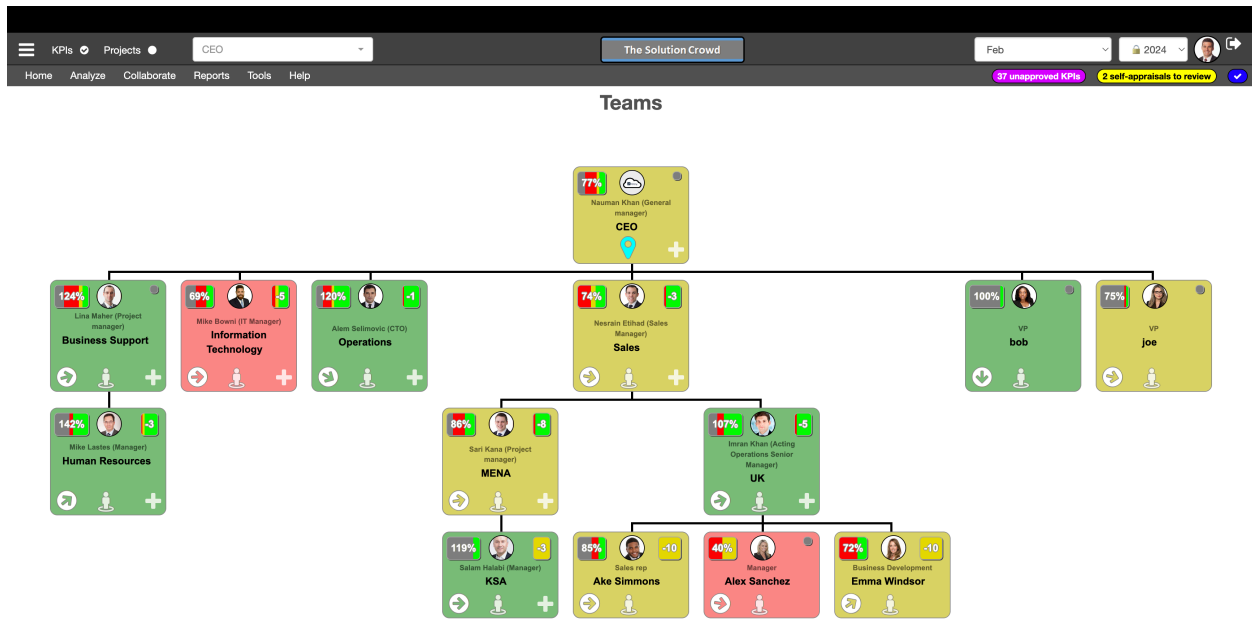

Strategy

Firstly, the Level 1 corporate objectives and KPIs are defined and propagated down to the lower-level teams.

The screenshot displays the Kippy Strategy dashboard for the CEO. At the top, there are navigation tabs for KPIs, Projects, and Teams, along with a date selector for October 2021. The main content area is titled "Strategy" and is divided into three sections: Vision, Mission, and Values. Below these is a table of Objectives, organized by Perspective (Customers and Finance), Objective, and Description. A legend at the bottom right indicates performance ranges: >100% (green), 80-99% (yellow), <80% (red), Target (blue), Missing (grey), and Not due (grey). A "Leave a message" button is visible at the bottom center.

Perspective	Objective	Description
Customers	Increase customer base & products and services	This objective is set to increase customer base & products and services
Customers	Provide quality & innovative customer service	This objective is set to provide quality & innovative customer service
Finance	Maximize revenues & returns from core and new business	This objective is set to maximize revenues & returns from core & new businesses EDITED X3

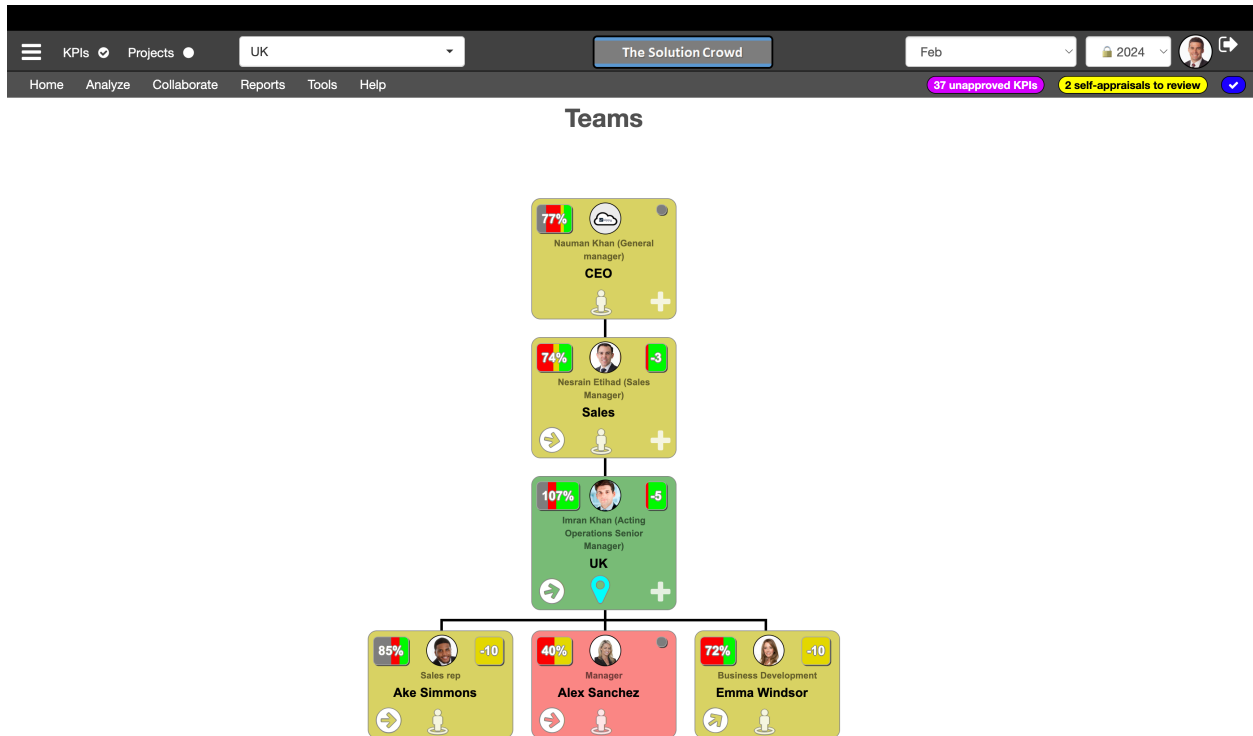

Teams

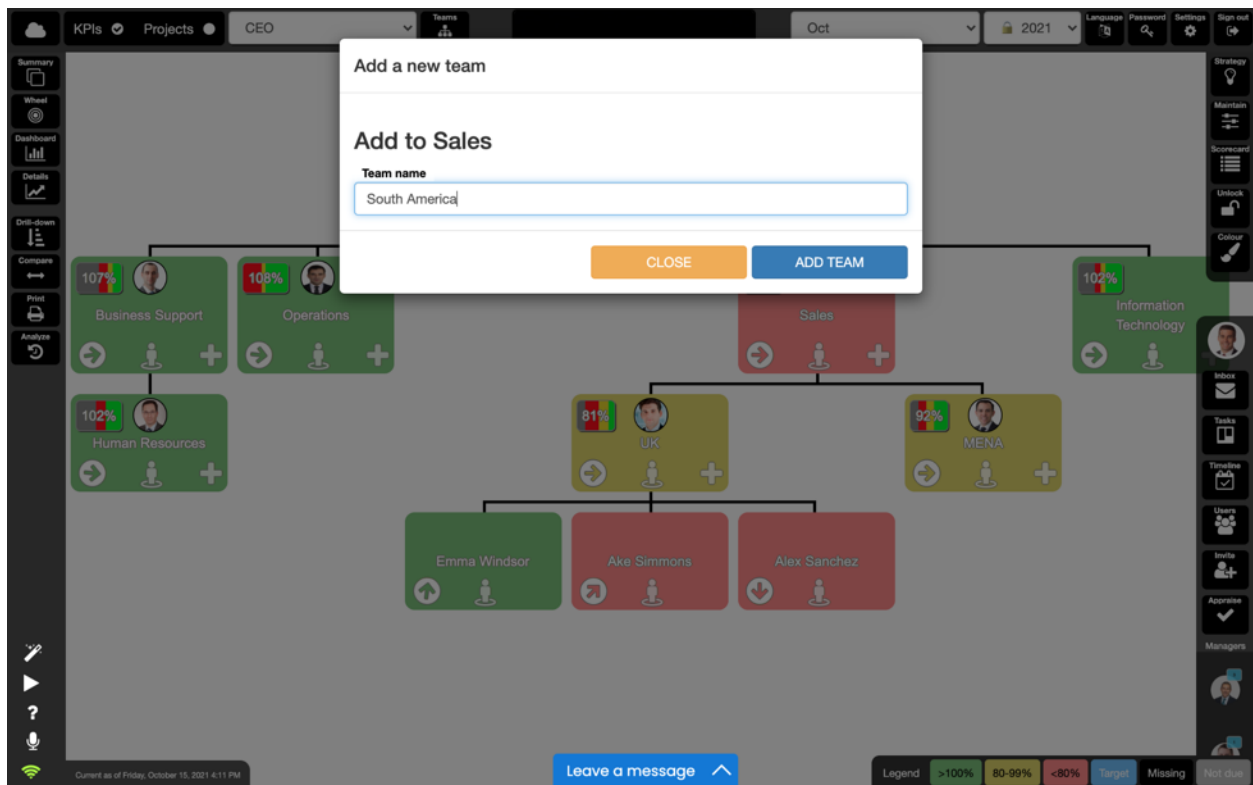

The team structure is created hierarchically by either the Admin adding sub-teams to a team or a Manager adding Employees to a team.

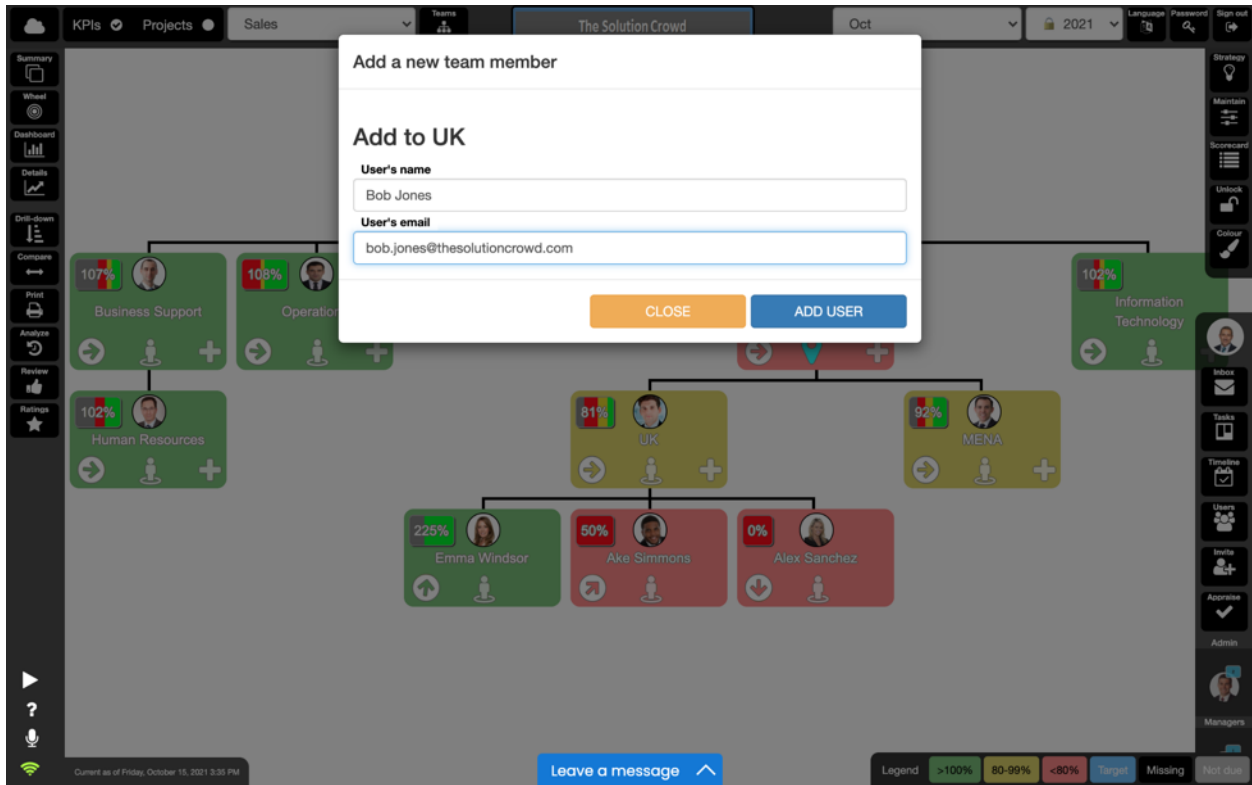

Double-click on the team boxes in the structure to collapse/expand each portion of the tree. Hold shift and scroll your mouse wheel for slow zoom in and out.

Use the “Follow me?” option in User profile to simplify the displayed teams hierarchy to only how the ancestors and direct children of the selected team.

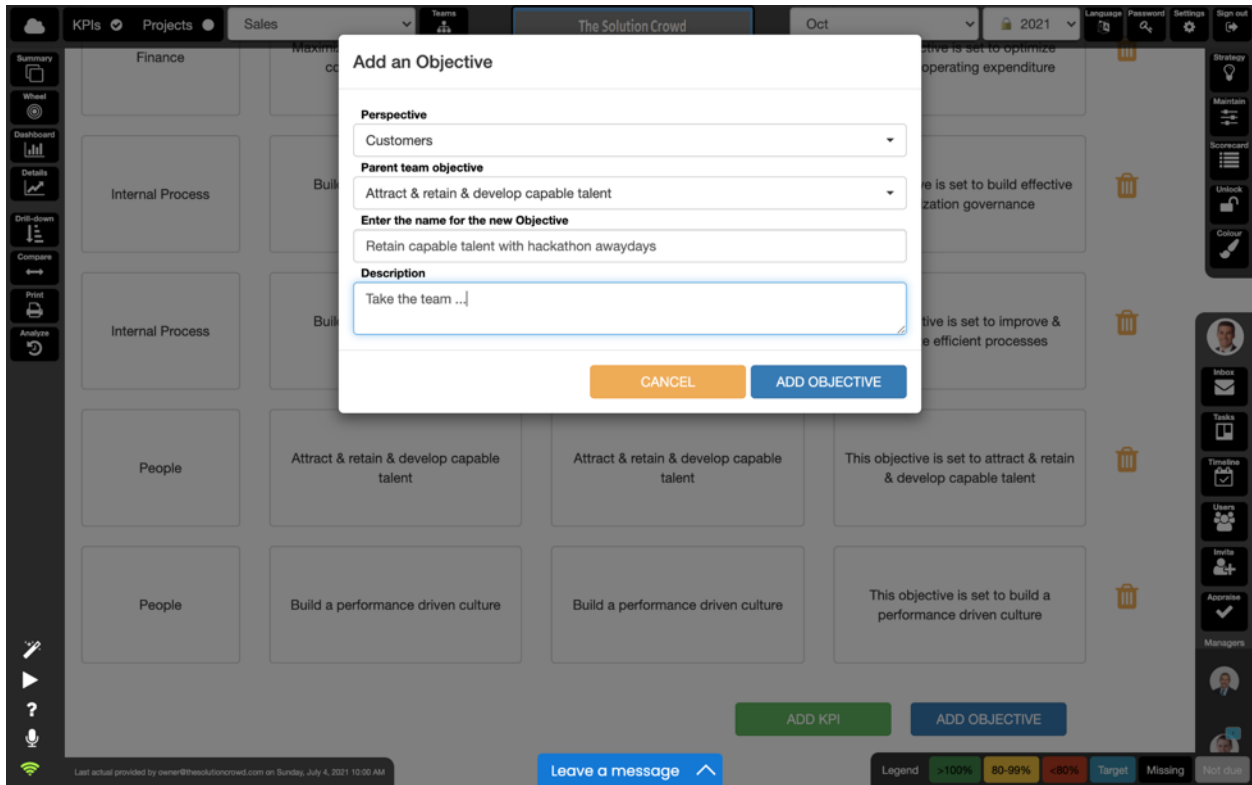

Add teams and people directly to the hierarchy.

Objectives

Then, each team can create local objectives and KPIs that are linked to the objectives of the parent team/department they are part of.

Cascade objectives vertically down your organisation and create local objectives.

AI (Artificial Intelligence)

Click through from the Strategy screen for A.I. suggested KPIs and OKRs for each strategic objective.

Hints

e.g. These KPIs are for a Sales team in the manufacturing industry. The currency is dollars. Make the descriptions longer. etc.

[Suggest](#) [Back](#)

Help

1. Click Suggest button to retrieve suggestions.
2. Click on blue pencil icon to edit suggestions.
3. Click on green Add button to add as an unapproved KPI to this team.
4. Enter hints (optional) to influence suggestions.
5. The green rows show the existing KPIs for this team.
6. Please note, suggestions may take 30 seconds to load.
7. Click Back to return to the previous page.

Suggestions based on your existing strategy definition and any free-text hints provided.

Edit and save in situ.

KPIs

Each employee in a team is then given individual objectives and KPIs that can be different, but must be aligned to the corporate objectives.

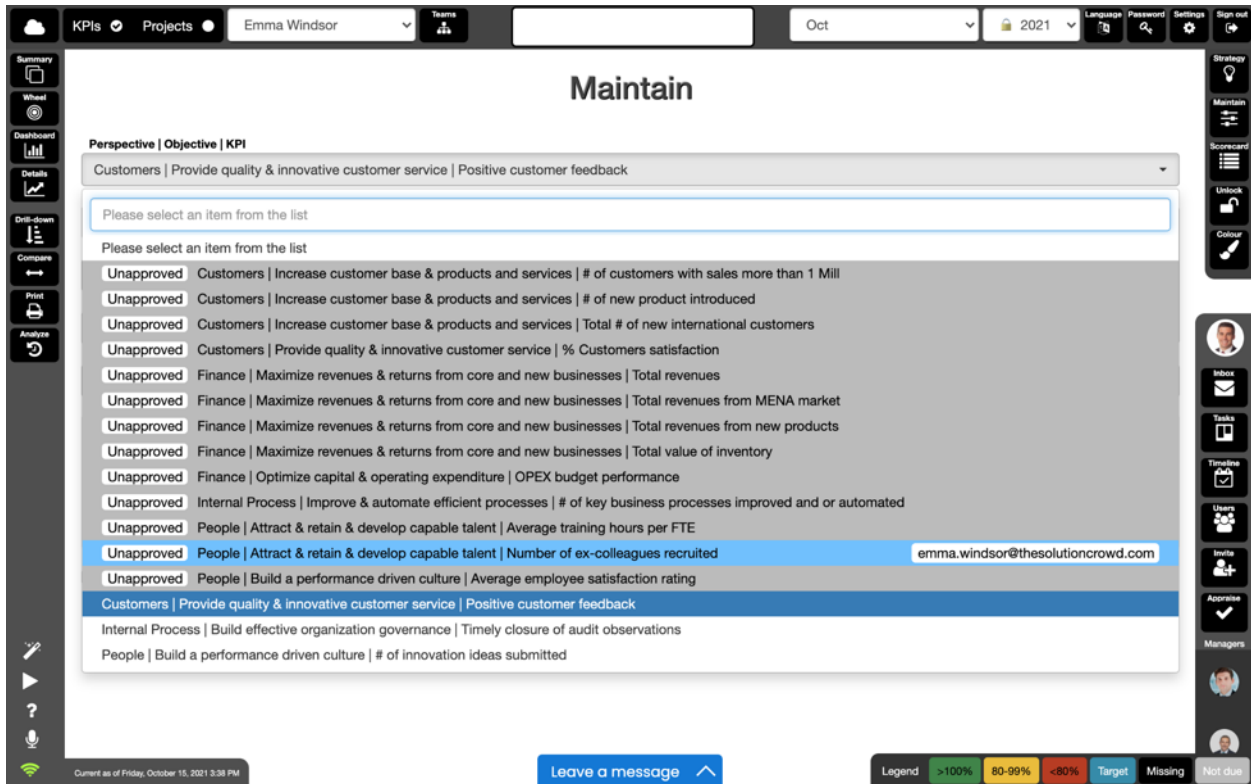

The screenshot shows the 'Maintain' interface in Kippy. At the top, there's a navigation bar with 'KPIs', 'Projects', and a user dropdown for 'Emma Windsor'. The main content area is titled 'Maintain' and contains a form for editing a KPI. The breadcrumb path is 'Customers | Provide quality & innovative customer service | Positive customer feedback'. The form fields include: Objective (Provide quality & innovative customer service), KPI Name (Positive customer feedback), Owner (emma.windsor@thesolutioncrowd.c), Direction (Increase is better), Weight (1x), Unit (empty), Frequency (Monthly), and Cumulative (Yes). Below the form is a table for 'Targets and actuals for 2021'.

Month	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Targets	2	2	2	2	2	2	2	2	2	2	2	2
Actuals	1	1	1	1	0	0	3	3	6	7		

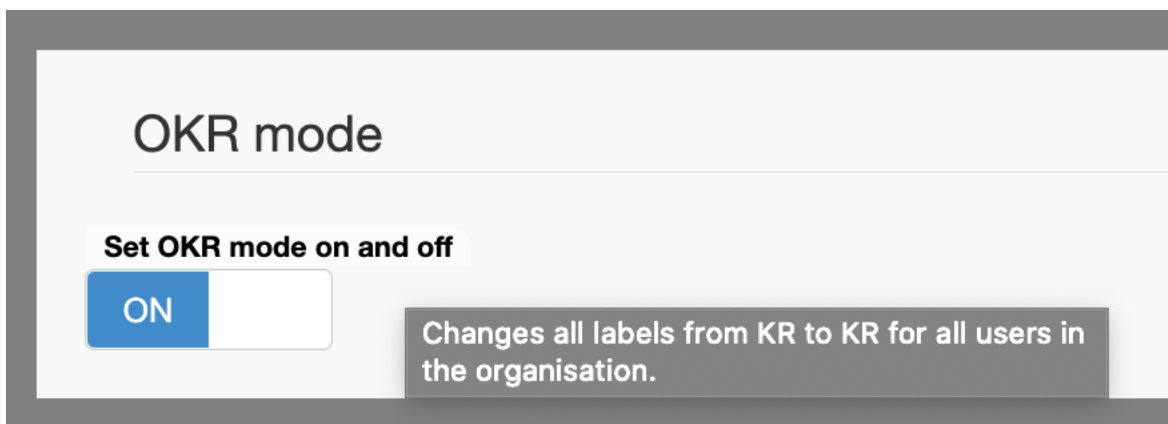

At the bottom of the form, there's a 'KPI approval status' section with an 'Approved' checkbox. To the right are 'CREATE NEW KPI' and 'EDIT KPI' buttons. A legend at the bottom right shows color-coded performance ranges: >100% (green), 80-99% (yellow), <80% (orange), Target (blue), Missing (grey), and Not due (white). A 'Leave a message' button is at the bottom center, and a status bar at the bottom left shows 'Current as of Friday, October 15, 2021 3:38 PM'.

OKRs

Employee's can propose individual objectives and KPIs. Whilst managers can also help define and review the proposals - before approving them.

Full OKR mode

Targets

Each KPI must be SMART and is therefore given a target to be measured at a predefined frequency (e.g. monthly, quarterly, semi-annual or annual).

The screenshot shows the 'Maintain' interface for a KPI. The top navigation bar includes 'KPIs', 'Projects', 'Emma Windsor', 'Oct', and '2021'. The main content area is titled 'Maintain' and contains the following fields:

- Objective:** Improve & automate efficient processes
- KPI Name:** Number of passed builds
- Owner:** emma.windsor@thesolutioncrowd.c
- Direction:** Increase is better
- Weight:** 1x
- Unit:** (empty)
- Frequency:** Quarterly
- Cumulative:** Yes
- Description:** (empty text area)
- Formula:** (empty text area)
- Data Source:** (empty text area)

Targets and actuals for 2021

Month	Q1	Q2	Q3	Q4
Targets	25	50	100	
Actuals	40	49		

KPI approval status
 Approved

Buttons: CANCEL, SAVE NEW KPI

Legend: >100% (green), 80-99% (yellow), <80% (red), Target (blue), Missing (grey), Not due (grey)

Updating Actuals

KPI Owner UI

The actual progress of each KPI can be provided by a variety of mechanisms.

- It can be provided directly by the employee in the kippy interface

The screenshot displays the Kippy Scorecard interface for user Emma Windsor. The interface is organized into several sections: Perspectives, Customers, Finance, Internal Process, and People. Each section contains a KPI card with a name, direction, weight, frequency, unit, cumulative target, actual value, and score. A table below the sections provides a detailed view of the KPIs.

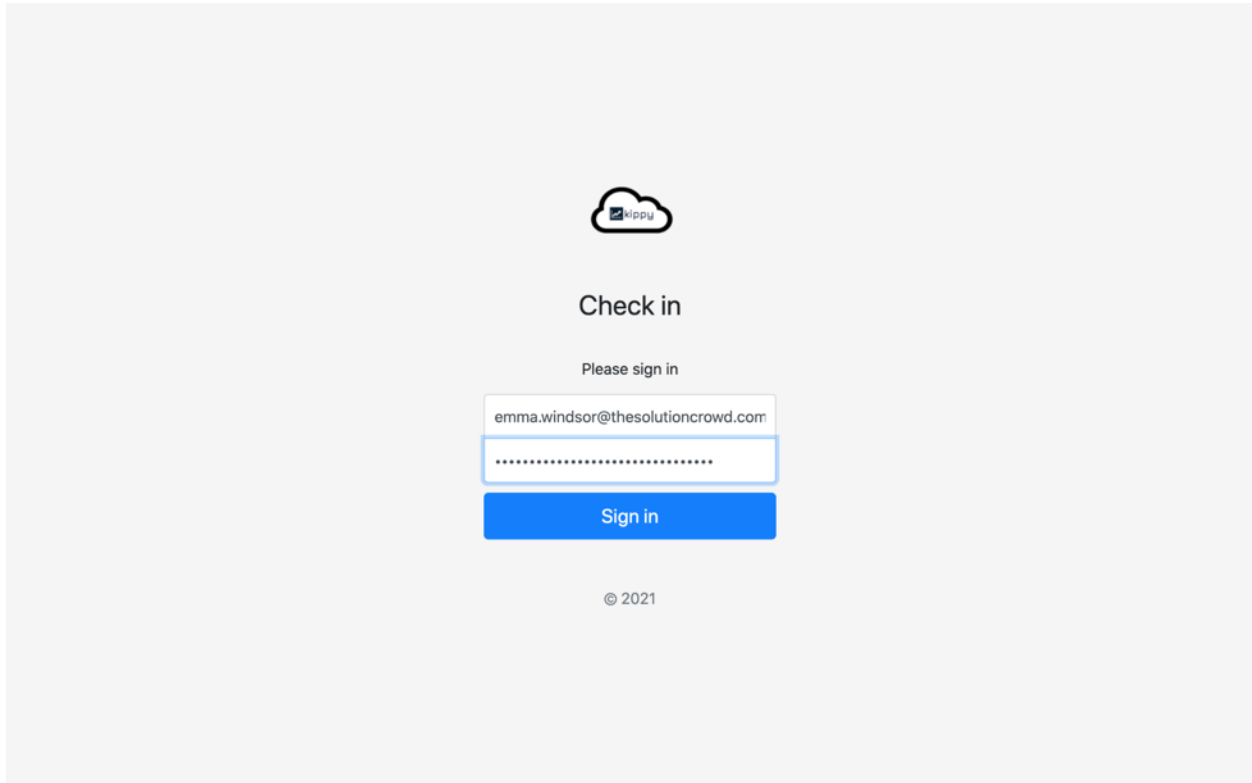

KPI Name	Direction	Weight	Frequency	Unit	Cumulative	Target	Actual	Score
Positive customer feedback	Increase	1x	Monthly		Yes	2	7	350%
Timely closure of audit observations	Increase	1x	Monthly		Yes	100	100	100%

Legend: >100% (Green), 80-99% (Yellow), <80% (Red), Target (Blue), Missing (Grey), Not due (White)

Check-in microapp

- It can be provided by the employee in an standalone express “check-in” microapp

Save

Cancel

The check-in microapp will display different ‘widgets’ for input of the actual, based on the Unit of the KPI.

The KPI below has a Unit of Completed.

The screenshot shows a KPI card for 'Hold town hall event (100%)' with a green header. The card displays 'Completed Yes', 'STM Process', and 'Strengthen Cross Functional Working'. Below this, it says 'Increase is better | 1x | Monthly | Cumulative' and 'last updated 25 second ago'. A dialog box titled 'Submit new actual' is open, showing radio buttons for 'Not Completed' and 'Completed' (which is selected). There are 'Save' and 'Cancel' buttons at the bottom of the dialog.

The KPI below has a Unit of OKR. There are also widgets for RAG and achieved.

The screenshot shows a KPI card for 'Hold town hall event (100%)' with a green header. The card displays 'OKR 1', 'STM Process', and 'Strengthen Cross Functional Working'. Below this, it says 'Increase is better | 1x | Monthly | Cumulative' and 'last updated 9 second ago'. A dialog box titled 'Submit new actual' is open, showing a progress scale from 0.0 to 1.0. The scale has a blue line indicating progress to 1.0. Below the scale, there are three text boxes: 'We failed to make real progress' (0.0-0.3), 'We made progress, but fell short of completion' (0.4-0.6), and 'We delivered' (0.7-1.0). A text input field contains the number '1'. There are 'Save' and 'Cancel' buttons at the bottom of the dialog.

Maintain UI

- Actual can be provided directly by the manager

The screenshot shows the 'Maintain' interface for a KPI. The top navigation bar includes 'KPIs', 'Projects', 'Emma Windsor', 'Teams', a search bar, 'Oct', '2021', 'Language', 'Password', 'Settings', and 'Sign out'. The main content area is titled 'Maintain' and contains the following sections:

- Perspective | Objective | KPI:** Customers | Provide quality & innovative customer service | Positive customer feedback
- Objective:** Provide quality & innovative customer service
- KPI Name:** Positive customer feedback
- Owner:** emma.windsor@thesolutioncrowd.c
- Direction:** Increase is better
- Weight:** 1x
- Unit:** (empty)
- Frequency:** Monthly
- Cumulative:** Yes
- Description:** (empty text area)
- Formula:** (empty text area)
- Data Source:** (empty text area)

Targets and actuals for 2021

Month	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Targets	2	2	2	2	2	2	2	2	2	2	2	2
Actuals	1	1	1	1	0	0	3	3	6	7		

KPI approval status
 Approved

Buttons: CANCEL (orange), SAVE KPI (green)

Footer: Current as of Friday, October 15, 2021 3:42 PM. Legend: >100% (green), 80-99% (yellow), <80% (red), Target (blue), Missing (grey), Not due (grey). A 'Leave a message' button is also present.

Built-in adapters

- Actual can be pulled in from an external system (e.g. a sales/productivity/ERP system).

Formula

```
=cloud.kippy.tfs.actualTestEffort
```

Data Source

TFS

Web APIs

- Actual can be pushed from external systems using kippy's web APIs e.g.

<https://kippy-tsc.appspot.com/api/v3/actual/?organisation=<org>&username=<username>&password=<password>&year=<year>&period=<period>&board=<boardName>&name=<name>&value=<value>>

and pulled out again

<https://kippy-tsc.appspot.com/api/v3/projects/?organisation=<org>>
<https://kippy-tsc.appspot.com/api/v3/projects/scores/?organisation=<org>>
<https://kippy-tsc.appspot.com/api/v3/kpis/?organisation=<org>>
<https://kippy-tsc.appspot.com/api/v3/kpis/scores/?organisation=<org>>

```
1 {
2   "projects": [
3     {
4       "department": "Strategy Development",
5       "dimension": "Shareholder Value",
6       "objective": "Manage the Project Pipeline",
7       "initiative": "Projects Development",
8       "weight": "1x",
9       "owner": "[REDACTED]",
10      "year": "2019"
11    },
12    {

32      "objective": "Improve Operational excellence",
33      "initiative": "HR Improvements Project",
34      "weight": "2x",
35      "owner": "[REDACTED]",
36      "year": "2019"
37    },
38  ]
39 }
```

Formulas

- Actual can be auto-calculated using formulas (e.g. the percentage of two other KPIs).

Formula

```
=cloud.kippy.percentage("Actual Test Effort", "Planned Test Effort")
```

The in-built formulas include divide, multiply, add, subtract, percentage, min, max, abs and average.

Also, the copy function can be used to make the Actual the same as the Actual for another KPI from the same or different Team. (e.g. copy the 'items sold' KPI from the Sales team).

Formula

```
=cloud.kippy.copy("Sales", "Items Sold")
```

The children formula can be used to sum the actual all KPIs with the name *kpiName* in the current team's direct sub-teams (i.e. one level below) e.g. =cloud.kippy.children.sum("*kpiName*")

If the kpiName is not provided, then the name of the current KPI will be used e.g.
=cloud.kippy.children.sum()

Scores can also be manipulated with the following functions:

Function	Description
=cloud.kippy.score.top()	Restrict score to maximum of 100
=cloud.kippy.score.top(110)	Restrict score to a maximum value e.g. 110
=cloud.kippy.score.bottom()	Restrict score to minimum of 0
=cloud.kippy.score.bottom (10)	Restrict score to a minimum value e.g. 10
=cloud.kippy.score.range (20, 80)	Restrict score to be within the range specified
=cloud.kippy.score.positive()	Absolute value e.g. -5 will be 5
=cloud.kippy.score.negative()	Absolute value multiplied by -1
=cloud.kippy.score.mid(20,90)	Set score as 0, 80 or 100 if below, between or above the two parameters

Formula

```
=cloud.kippy.score.top()
```

Metrics

Variables can be set to be used in formulas. Each variable is scoped per period but can be used in any team. Variables can be set via API calls. Changing the value of variable will automatically re-calculate all formulas that reference them.

Formula variables (Aug 2023)

Current variables

Variable	Value
total items sold	850
units produced	900

Filter variables

Close

Add new variables

Enter new variables

A list of key value pairs e.g.
Days of month=30
Units produced=900

Add variables

Generated: Fri Aug 11 18:03:14 UTC 2023

The formula `=cloud.kippy.use("param1")` will use the actual value of the *param1* – where *param1* is either the name of KPI in the current team or the name of a metric variable.

Reviewing actuals

Manager UI

Each actual submission is reviewed by the manager for clarification, adjustment or clarification.

Review

Users with KPIs due for review

Bobby Blake (bob@thesolutioncrowd.com) 1 of 2 KPIs to review

Sales | Finance | Maximize revenues & returns from core and new businesses | Total value of inventory

Sep	65	65
Oct	65	65
Nov	75	75
Dec	75	75

Hour : 1x : Decrease is better : Cumulative : Bobby Blake

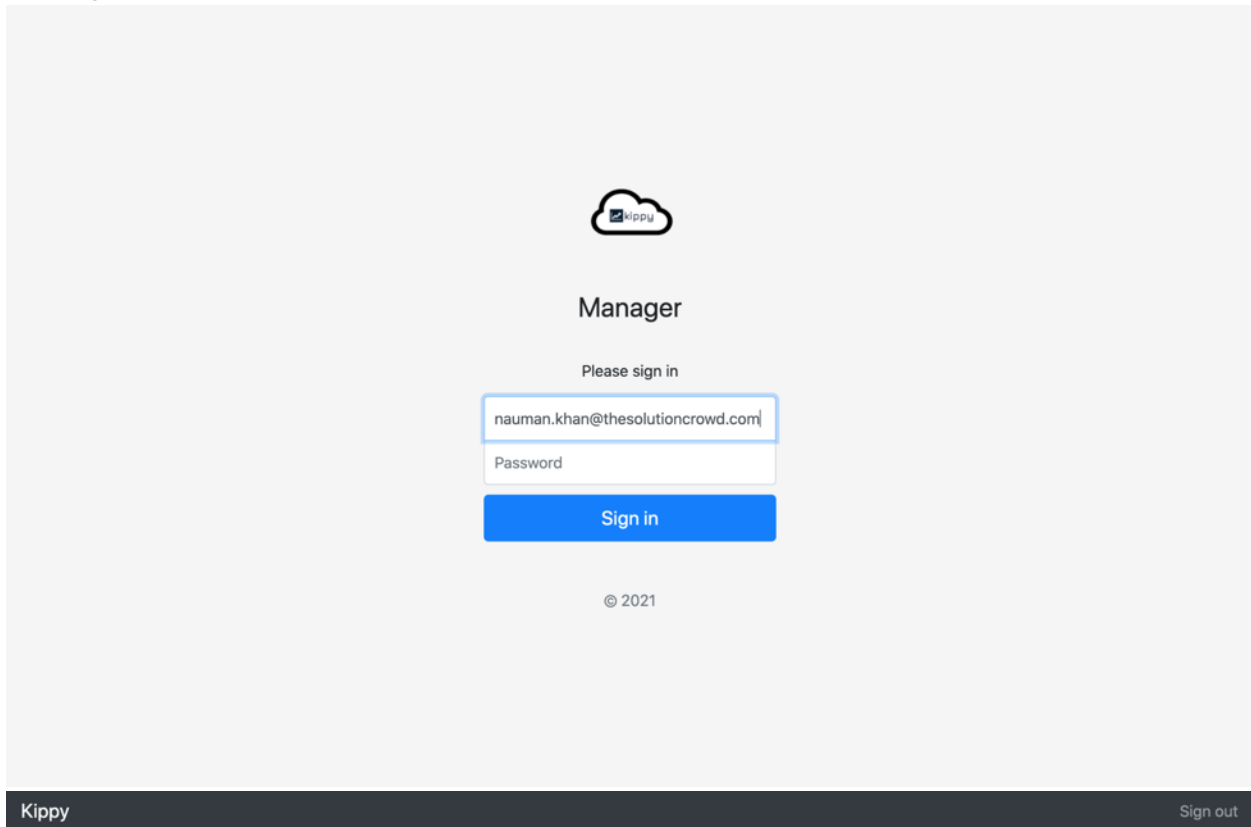

The screenshot displays the Kippy dashboard interface. At the top, there is a navigation bar with a hamburger menu, 'KPIs' (800), 'Projects' (CEO), 'The Solution Crowd', 'Feb', and '2023'. Below the navigation bar are tabs for 'Home', 'Analyze', 'Collaborate', 'Reports', 'Tools', and 'Help'. Two notification banners are present: '1 Self appraisal to review' and '32 KPIs to review'. The main content area features two KPI cards. The left card, titled 'Mill \$: 1x : Increase is better : Cumulative : Bobby Blake', shows a bar chart with values for each month (Jan-Dec) and a table with fields: Updated by (Owen Turner), Last updated (1 month ago), Reviewed by (n/a), Last reviewed (n/a), Current actual (4), Target (6), and New Actual. The right card, titled 'Hour : 1x : Decrease is better : Cumulative : Bobby Blake', shows a bar chart and a table with fields: Updated by (Owen Turner), Last updated (1 month ago), Reviewed by (You), Last reviewed (4 days ago), Current actual (2), Target (3), and New Actual. Both cards include an 'Add comment' section with a rich text editor and an 'APPROVE' button at the bottom.

Managers can quick approve with a single click, approve with notes, and adjust (with/without notes).

Manager approval microapp

Managers can also review actuals with a standalone express “approval” microapp.

Mentions

All conversations are emailed (or Slacked) to the involved users. Additional users can be 'mentioned' in a chat by simply adding their email address.

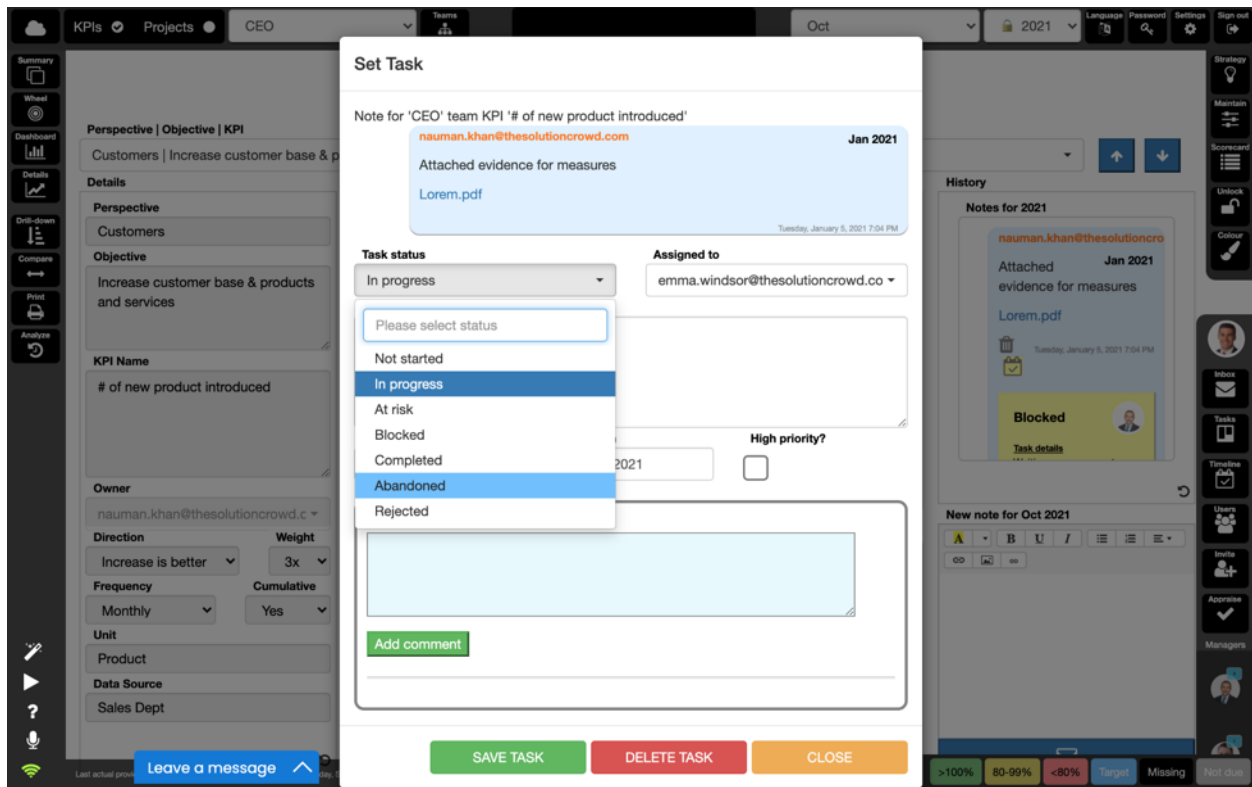

Tasks

Task setting

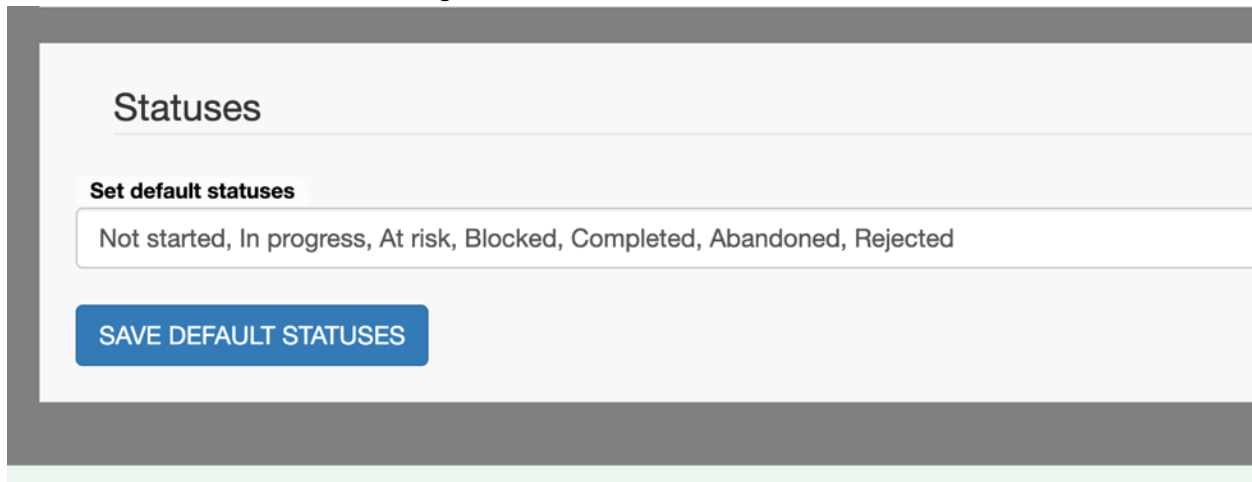

Each KPI can have tasks assigned which can be used to track OKRs, improvement activities and actions on other employees and managers.

These tasks can have deadlines, escalations, reminders and customized workflow.

The set of task statuses are configurable.

Task viewing

All tasks are automatically presented in an Inbox, TimeLine and Kanban board for each user to help ensure they are actioned in a timely manner - with automated alerts when past due.

The screenshot displays the Kippy dashboard interface. At the top, there is a navigation bar with 'KPIs', 'Projects', and 'CEO' selected. The main content area is titled 'Inbox' and contains two task cards and two charts. The first task card is from 'owner@thesolutioncrowd.com' dated 'Jun 2021' with the text 'Please tel why the Jul is red'. The second task card is from the same user dated 'Jan 2021' with the text 'Test' and 'In progress'. Below the task cards, there is a 'Leave a message' button. On the right side, there are two charts: 'Total revenues from new products' and 'Customer Study Initiative'. Both charts show monthly data from Jan to Dec. The 'Total revenues from new products' chart has a blue line and red bars, while the 'Customer Study Initiative' chart has green bars. A legend at the bottom right of the second chart indicates performance levels: >100% (yellow), 80-99% (orange), <80% (red), Target (blue), Missing (grey), and Not due (grey). The dashboard also features a left sidebar with navigation icons and a right sidebar with user management options.

Tasks can be drag and dropped to different statuses in the Tasks screen.

Projects

As well as individual and team KPIs, employees can also be made responsible for milestones on key Projects.

Expansion International Action Plan

Objective
Increase customer base & products and services

Project name
Expansion International Action Plan | Weight: 1x

Project manager
imran.khan@thesolutioncrowd.com | **Project sponsor**
nauman.khan@thesolutioncrowd.com

Start date: 12-Jan-2019 | **End date**: 09-Dec-2020 | **Total budget**: 110000.0 | **Total spent**: 13500.0 | **Variance**: 96500.0

Description
Increase Sales from the international market by Participating in Exhibitions , Regular & Potential customers visits, Explore stockist and suggest new products

Risk
- Change import policies In USA (Foreign Laws and Regulations) - Slow economy all over the world

Mitigation
New marketing channels include social media, web 2.0, email, mobile marketing, search and apps. These channels are notably of interest to executives in the US, China and Russia

Milestone name: Add more products | **Milestone description**: Add more products

Milestone owner: alern.selimovic@thesolutio - | **Milestone weight**: 1x | **Milestone start date**: 06-Jun-2019 | **Milestone end date**: 13-Aug-2020

Analyze

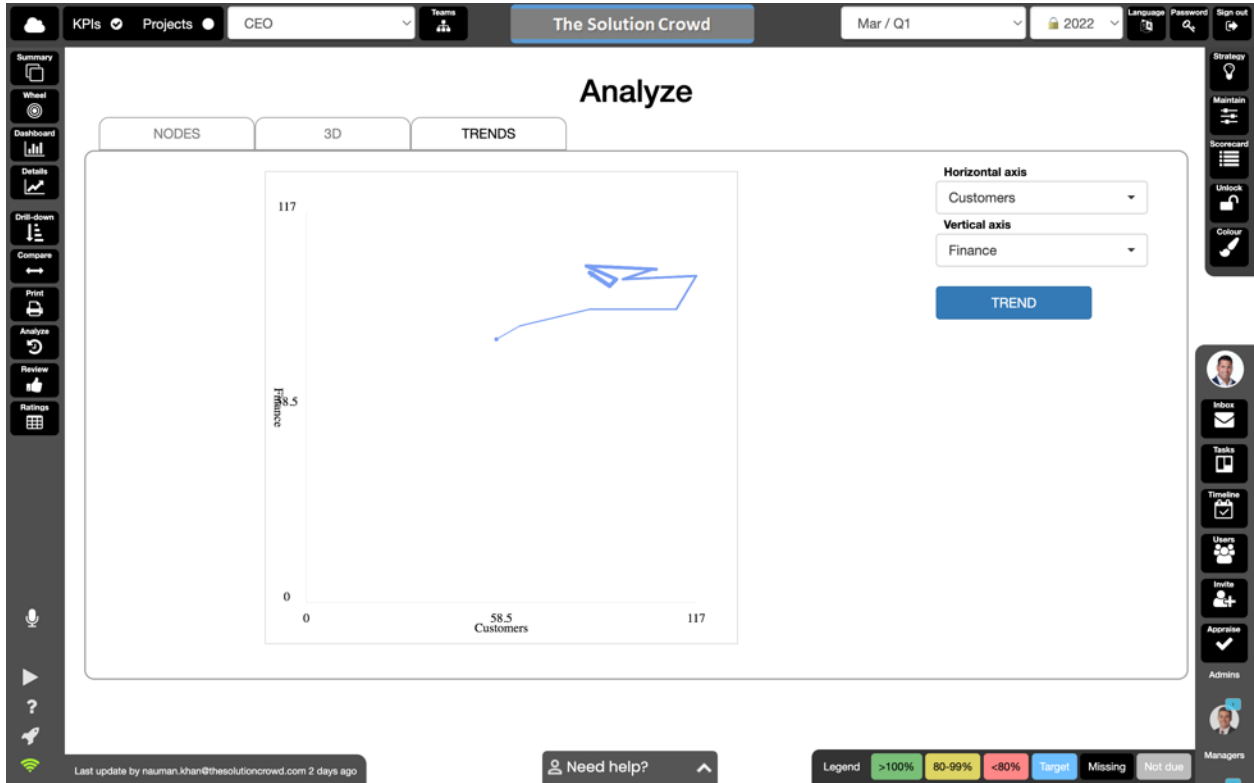

You can analyze your data by different dimensions.

Interact, filter, drill-down and animate the nodes using your mouse. Hover over the filters to learn more.

Drag with your mouse to change the perspective. Hover over the filters to learn more.

Compare how two items are trending over the year.

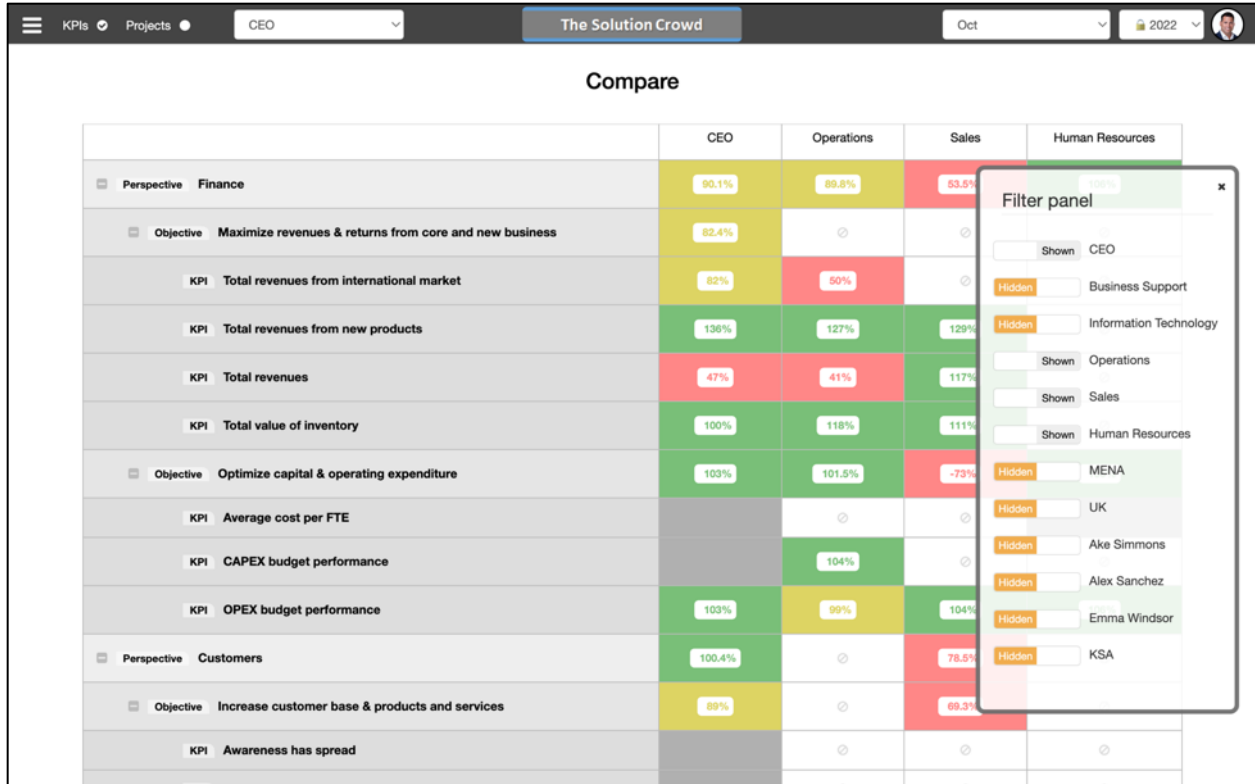

The screenshot displays the 'Drill Down' feature in the Kippy dashboard. At the top, the perspective is set to 'CEO' with an overall objective score of 106.4%. Below this, a table lists KPIs for the CEO level, including 'Awareness has sp...', 'ddfgag', 'Invite new prospects', and 'Total # of new international customers'. A tooltip for the first KPI explains that to increase revenue and sales, the company needs to add new products to its offerings. Below the CEO table, the 'Business Support' sub-team is shown with a KPI for 'Timely closure of audit observations'. A legend at the bottom right indicates score ranges: >100% (green), 80-99% (yellow), <80% (red), Target (blue), and Missing (grey).

KPI Name	Direction	Weight	Frequency	Unit	Cumulative	Target	Actual	Score
# of new product intro	Increase	3x	Monthly	Product	Yes	80	99	124%
Awareness has sp...	Increase	1x	Quarterly	10	Yes			
ddfgag	Increase	1x	Monthly	Customer	Yes	88	90	102%
Invite new prospects	Increase	2x	Quarterly	# of people	Yes			
Total # of new international customers	Increase	1x	Monthly	Customer	Yes	9000	6150	68%

KPI Name	Direction	Weight	Frequency	Unit	Cumulative	Target	Actual	Score
Timely closure of audit observations	Increase	2x	Quarterly	%	Yes			

Check performance of your objective, by the vertical alignment of sub-objectives down the organisation.

Check the performance of your perspectives, objectives and KPIs horizontally across your organisation – filtering out columns on demand.

Strategy map

View the org wide strategy on a strategy map.

The strategy map is available for the level 1 team and for any other team.

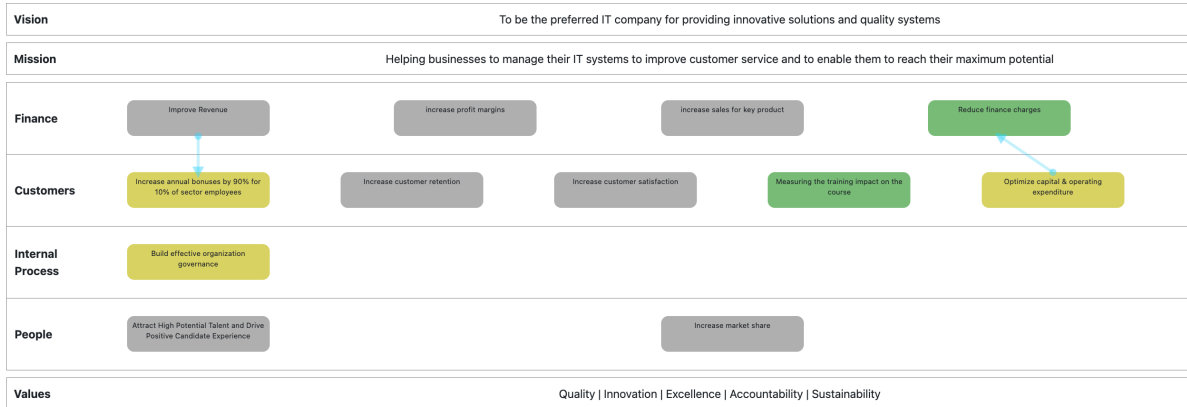

The strategy map shows the objective scores for the selected period and year.

Links between objectives can be created with a simple drag-and-drop from one objective to another.

Links can also be given descriptions (by turning on objective link descriptions in Tools | Settings | Objectives).

Strategy Map (CEO - Apr 2024)

Links

From	To
Improve Revenue	Increase annual bonuses by 90% for 10% of sector employees
Optimize capital & operating expenditure	Reduce finance charges

- Sales | Customers | Increase customer base & products and services | # of customers with sales more than 1 Mill

Legend: >100% 80-99% <80% Target Missing

Staff appraisals

Managers can then appraise employees based on competencies. Please note:

- The competencies are weighted, defined and customized by administrators per the employee's role.
- Appraisals can be performed on a monthly and/or year-to-date basis (for non-cumulative KPIs)

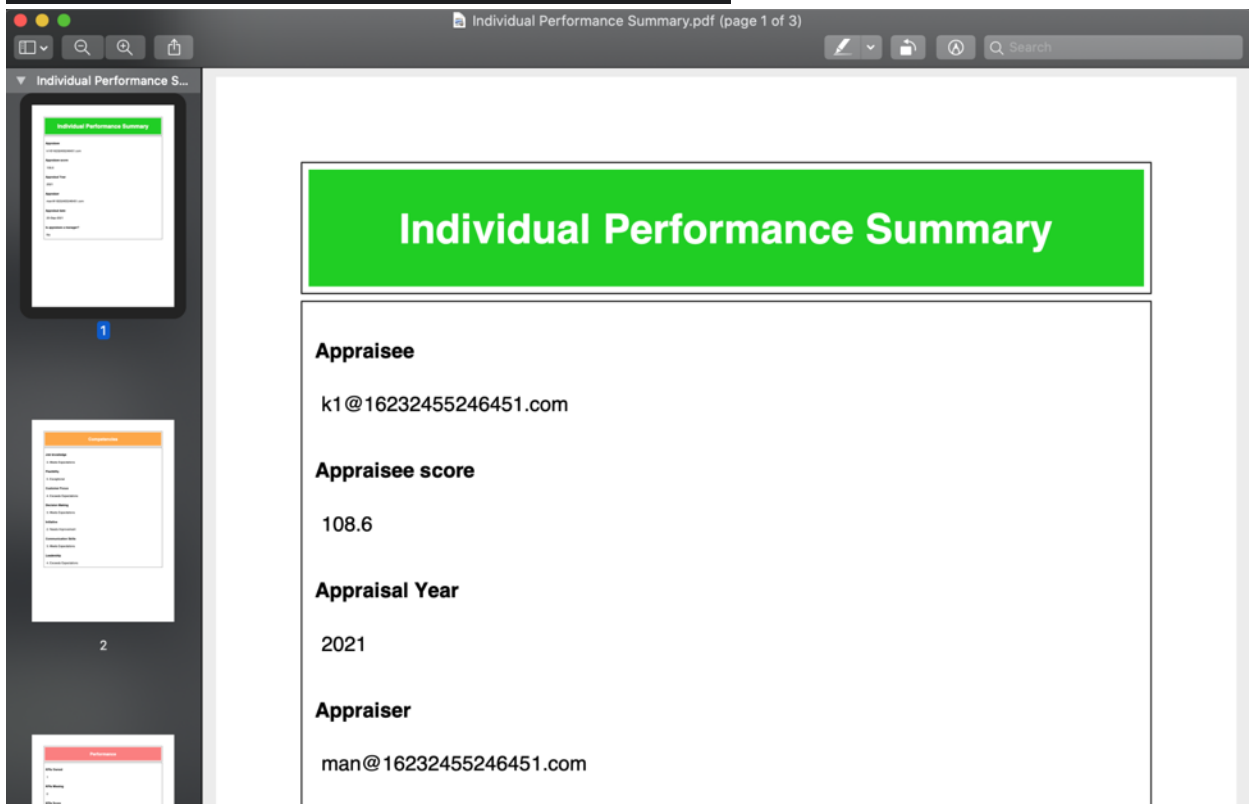

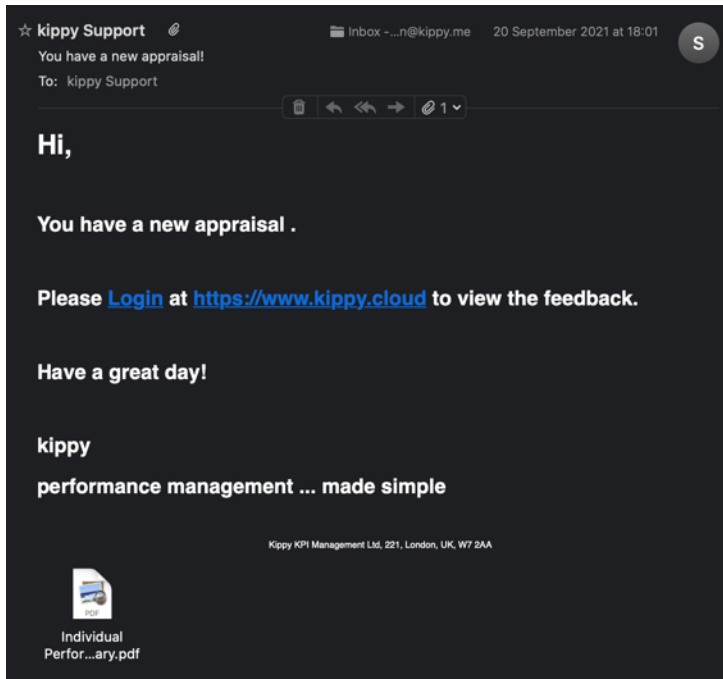

The screenshot displays the 'Settings' page in the Kippy application, with the 'Competency' tab selected. The page is divided into several sections:

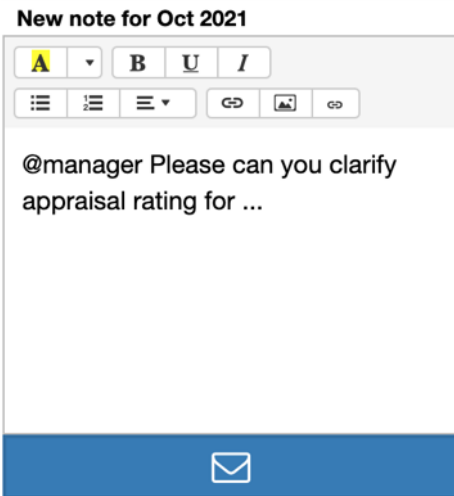

- Individual Performance Summary:** A toggle switch for the 'Individual Performance Summary Module' is currently set to 'ON'.
- Add Competency:** A form with fields for 'Name', 'Description', 'Manager weight' (set to '1x'), and 'User weight' (set to '1x'). A blue 'ADD COMPETENCY' button is at the bottom.
- Set Competency Weighting Ratio (For Non-Managers):** Fields for 'KPI Weighting' and 'Competency Weighting' (set to '60'). A blue 'SAVE WEIGHTING RATIO' button is at the bottom.
- Set Competency Weighting Ratio (For Managers):** A section for setting weighting ratios for managers, currently empty.

The interface includes a top navigation bar with 'KPIs', 'Projects', and 'CEO' dropdowns, and a right sidebar with various user management icons. A legend at the bottom right shows performance ranges: >100% (green), 80-99% (orange), <80% (red), Target (blue), and Missing (grey).

- The manager's appraisal automatically creates an appraisal report which is automatically sent to the employee.

- The employee can then interact with the manager to discuss, create IDPs and if necessary escalate.

- The appraisal generates an average employee score and rating for the employee based on the weighted average of the performance score and the competency score.

The acknowledgement and 360-degree feedback are then available to the recipients and their managers – on the Individual Performance Summary screen.

The screenshot shows the 'Acknowledgements' section of an Individual Performance Summary. It features a list of feedback messages with star ratings and timestamps. Below the list, there are 'KPI Graphs' for various categories like Sales | People, Sales | Finance, and Sales | Process. The interface includes a top navigation bar with 'KPIs', 'Projects', and 'Sales' tabs, and a right-hand sidebar with various utility icons.

Acknowledgements

- ★★★ Your insights and instruction are always appreciated. However, I feel that I perform and learn better when you allow me to figure out how to achieve the target on my own. 15 second ago anonymously
- ★ Sometimes the amount of tasks and responsibilities on my plate feel overwhelming. I would be grateful if you are able to provide any assistance with something I am struggling with. 47 second ago by usain@exorg.com, a direct report who interacts weekly
- ★★ I was surprised that you found my ideas to be far off base. In order to avoid future misunderstandings about what direction you want me to take, I would like to have more frequent and detailed discussions. 1 minute ago by usain@exorg.com, a direct report who interacts daily
- ★★★★★ I appreciate all of the coaching and mentoring opportunities you have kindly provided. I want to continue working closely with you to promote my professional growth and career development. 1 minute ago anonymously
- ★★★★★ Whenever I run into an unforeseen issue I know that I can come to you to discuss it. I hope we can continue to tackle those roadblocks and come up with solutions together. 2 minutes ago anonymously
- ★★ Great effort to get the project live - but would be great to see the output of any retrospective. 30 minutes ago anonymously
- ★★★★★ I want to thank you for always showing enthusiasm and being willing to jump in wherever the team needs assistance or guidance. That kind of leadership really helps us to stay motivated. 1 hour ago by usain@exorg.com, a direct report who interacts weekly

Risk Management

Risk Report

Risk and mitigations can be captured at Team, Project and Task level.

The risk items are then collated on a single Risk Report, summarizing the latest view on risk across the organisation.

Risk Report (Jun 2022)

Team-level risks

Team	Key Achievements	Key Challenges & Risks	Outstanding Items	Required Decisions & Support
CEO	Revenue or sales you increased for the company. Money you saved for the company. Time you saved for the company. Problems you identified and solved. Ideas or innovations you introduced.	Failure to use appropriate risk metrics. ... Mismeasurement of known risks. ... Failure to take known risks into account. ... Failure in communicating risks to top management. ... Failure in monitoring and managing risks.	n/a	Sign-off on budget range. Org-wide comms to teams to buy in to process.

Project-level risks

Team	Objective	Project	Risk	Mitigation
CEO	Build a performance driven culture	Engagement Framework	- Inaccurate responses from survey participants - Limited budget to develop the framework and conduct the survey - Delay in Approval process	- Develop a comprehensive communication plan highlighting the ROI and benefits of the engagement framework - Third party to conduct the survey to ensure anonymity & confidentiality - Requesting internally streamlined approval process
CEO	Build a performance driven culture	Engagement Framework	- Inaccurate responses from survey participants - Limited budget to develop the framework and conduct the survey - Delay in Approval process	- Develop a comprehensive communication plan highlighting the ROI and benefits of the engagement framework - Third party to conduct the survey to ensure anonymity & confidentiality - Requesting internally streamlined approval process
CEO	Build a performance driven culture	Engagement Framework	- Inaccurate responses from survey participants - Limited budget to develop the framework and conduct the survey - Delay in Approval process	- Develop a comprehensive communication plan highlighting the ROI and benefits of the engagement framework - Third party to conduct the survey to ensure anonymity & confidentiality - Requesting internally streamlined approval process
Human Resources	Improve & automate efficient processes	Upgrading Performance Management System	Resisting change by middle management and other Senior staff	Increase buy-in throughout the project while supporting all teams

Task-level risks

Team	Type	Item	Note	Task Description	Task Comments
CEO	KPI	Total revenues from international market	I need to know why red	Forecast breakdown needed	Risk of allowed budget exceeding by \$56k - nauman.khan@thesolutioncrowd.com (20-Jun-2022 09:46)
CEO	KPI	Total revenues from international market	Please find attached latest report. Lorem_ipsum.pdf	Please breakdown by forecast	Budget forecast exceeds top range by \$56k - nauman.khan@thesolutioncrowd.com (20-Jun-2022 09:46)

Governance

All this is controlled with automated governance.

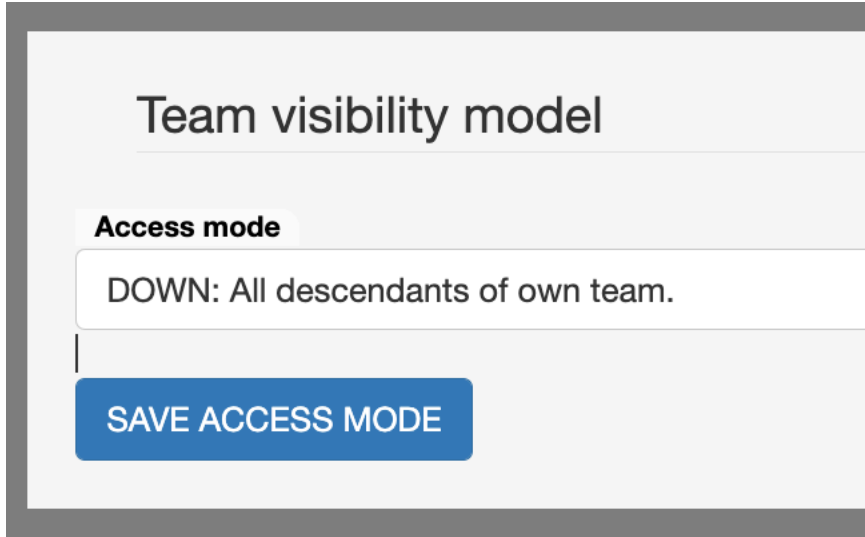

Roles

Only the appropriate users, with the appropriate roles, for the appropriate teams can view and edit the appropriate information.

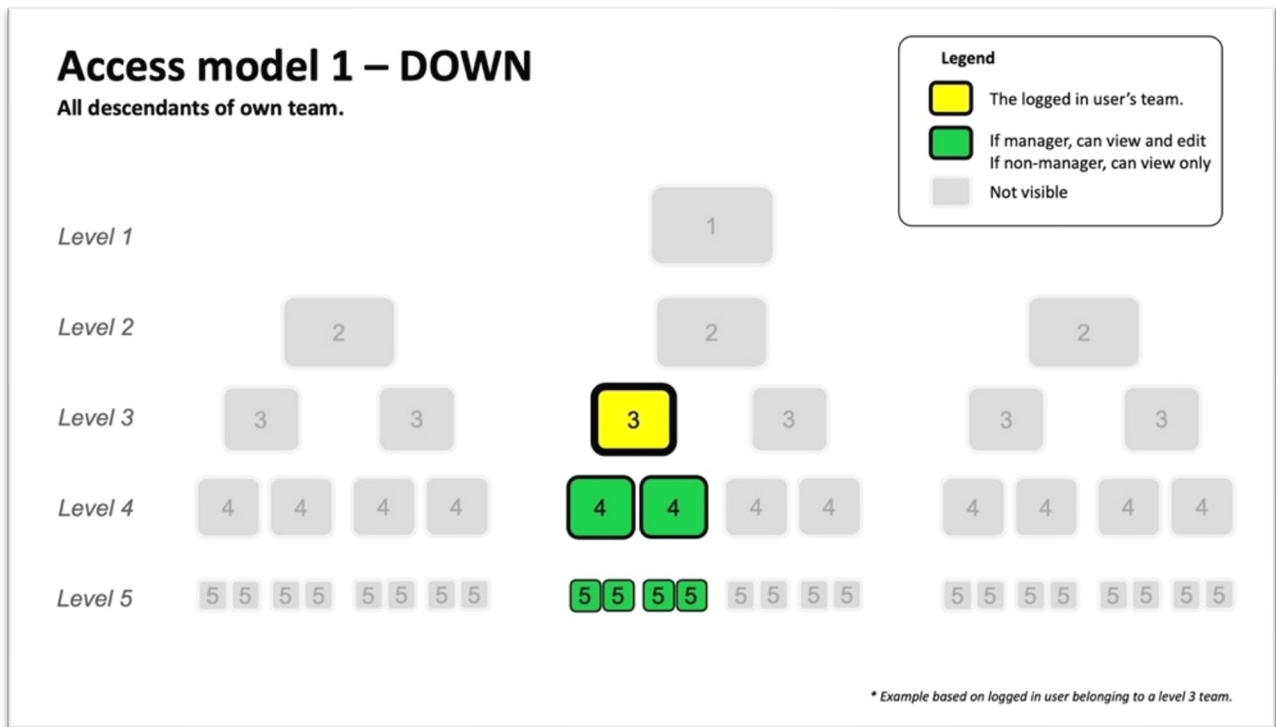

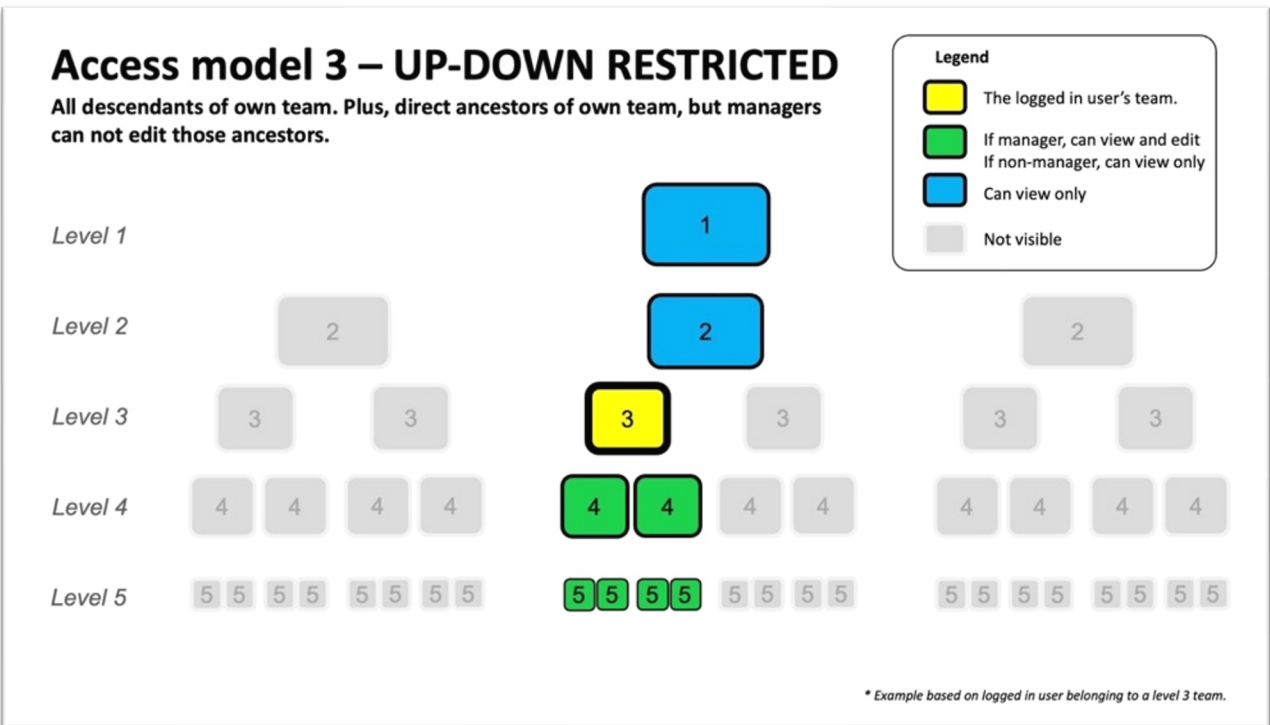

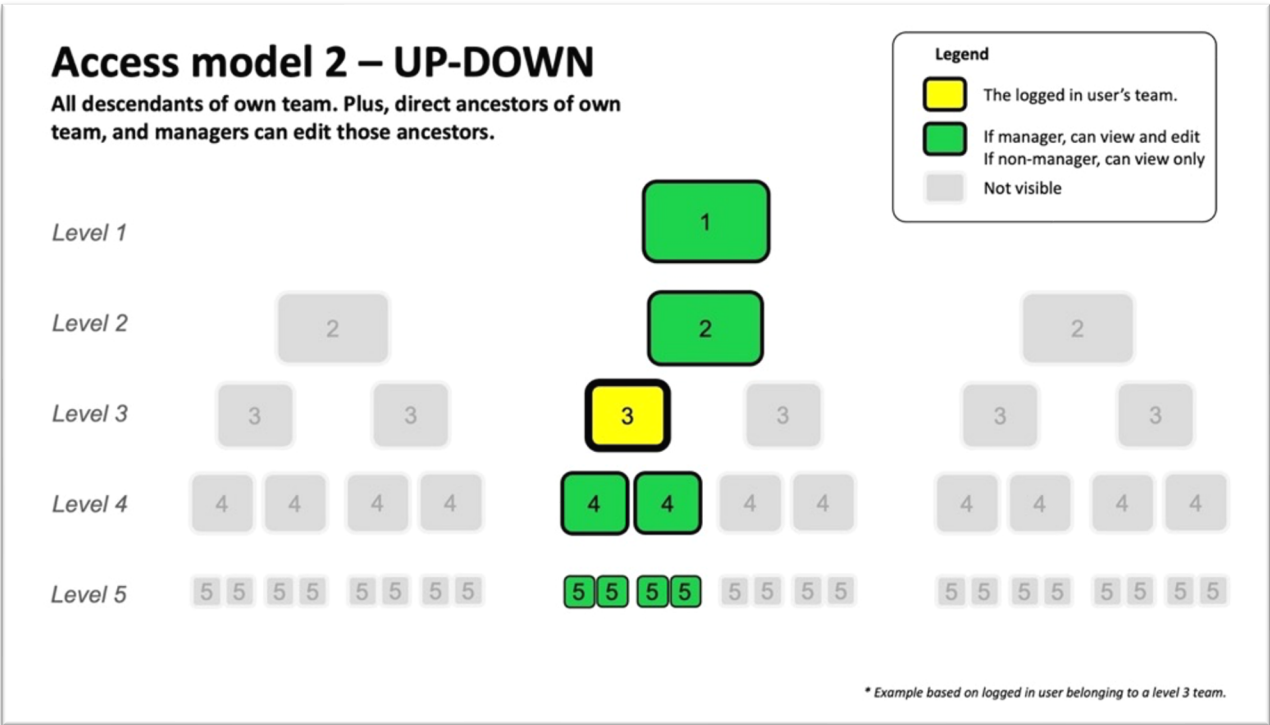

Managers have additional screen to perform HR functions.

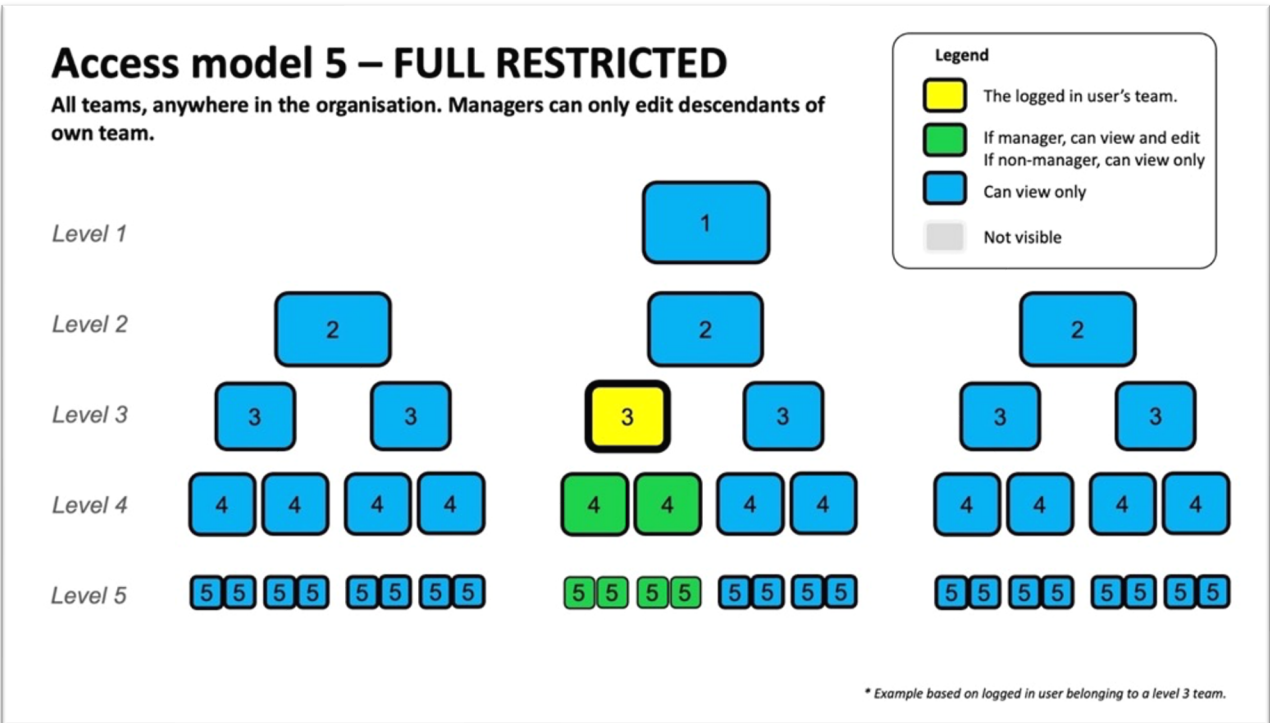

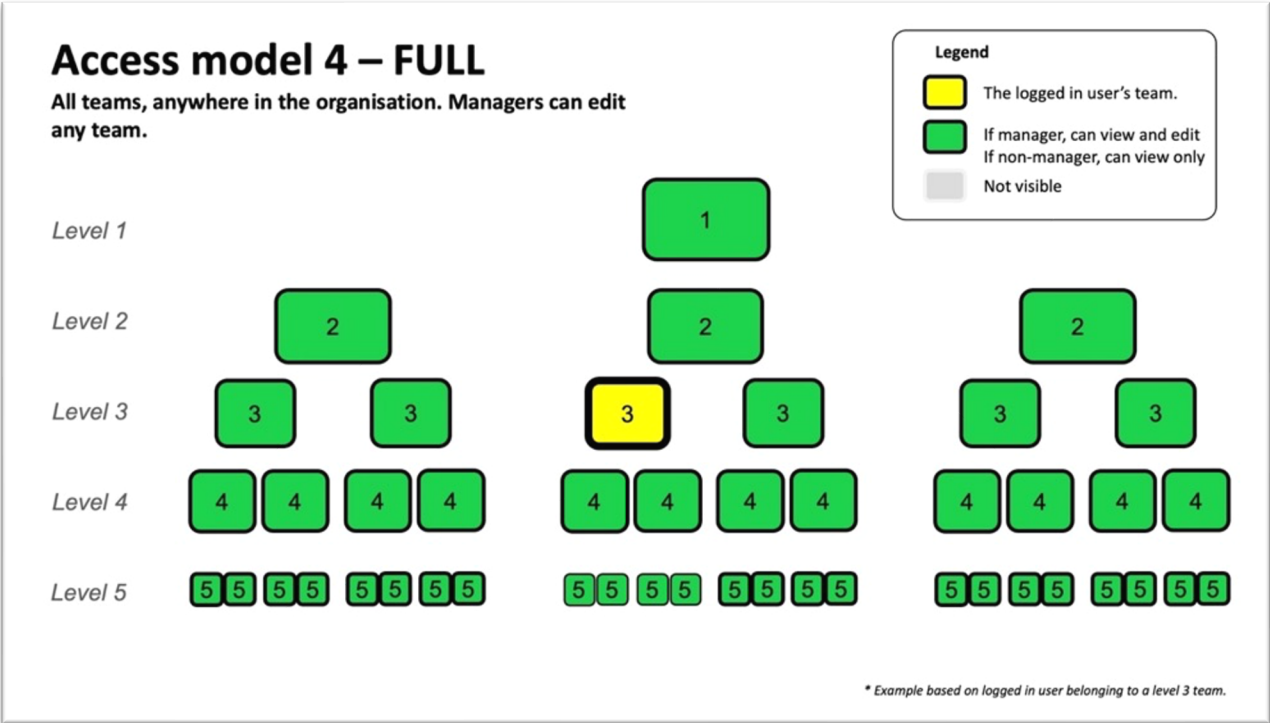

Organisations can configure the access mode according to their company policy.

The 5 access modes are explained below. These can be customized further, as per specific requirements.

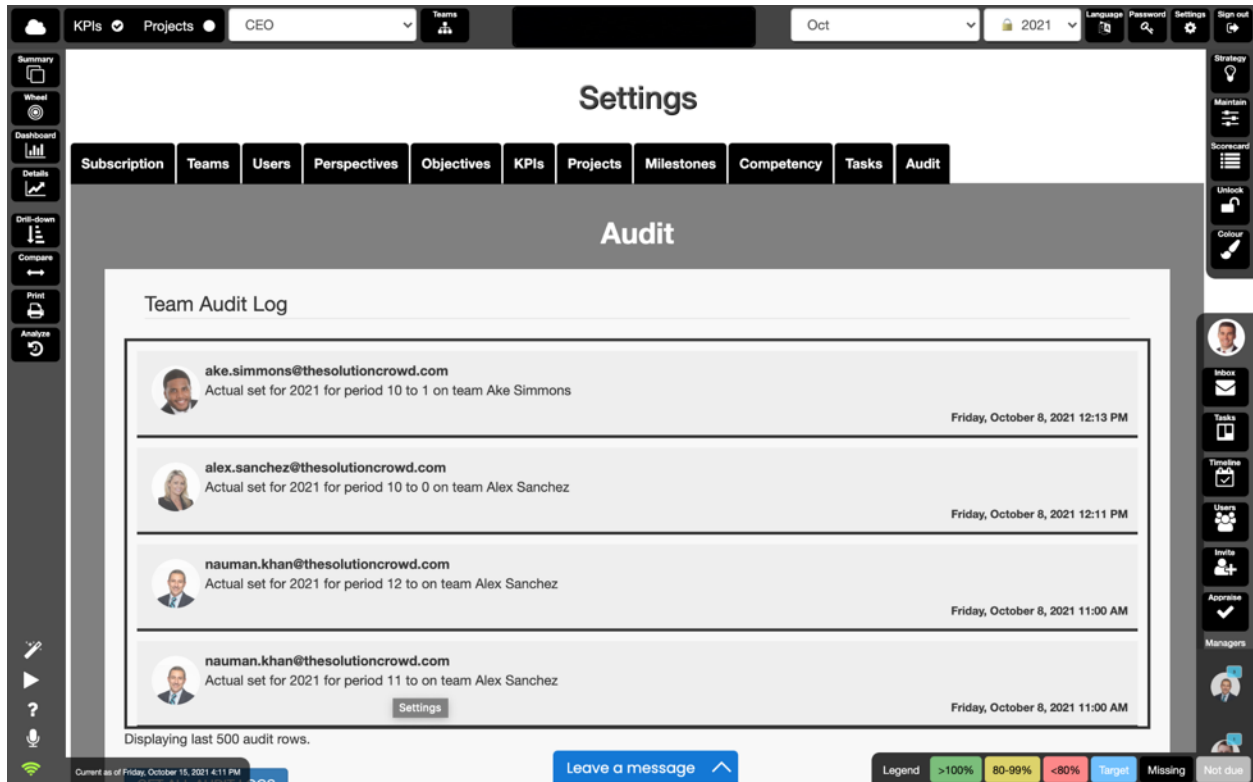

Auditing

Every change is automatically audited in an immutable log.

System owners can review the system-wide audit log.

The screenshot shows the Kippy Settings interface. At the top, there's a navigation bar with 'KPIs', 'Projects', and 'CEO' selected. Below this is a 'Settings' page with a horizontal menu of tabs: 'Subscription', 'Teams', 'Users', 'Perspectives', 'Objectives', 'KPIs', 'Projects', 'Milestones', 'Competency', 'Tasks', and 'Audit'. The 'Audit' tab is active, displaying a 'Team Audit Log' table. The table contains four rows of audit entries, each with a user profile picture, email address, a description of the change, and a timestamp. The entries are:

User	Action	Timestamp

nauman.khan@thesolutioncrowd.com	Actual set for 2021 for period 11 to 0 on team Alex Sanchez	Friday, October 8, 2021 11:00 AM

Below the table, it says 'Displaying last 500 audit rows.' and there is a 'Settings' button. At the bottom of the page, there is a 'Leave a message' button and a legend for performance metrics: '>100%', '80-99%', '<80%', 'Target', 'Missing', and 'Not due'.

An audit log of all changes with audit reports including:

- per KPI
- per Project
- per User
 - including when each user logged in
 - including changes to KPI's the user is an owner for.

User management

Simple in-app management

Manage users in app (or Integrate with your internal JML “joiner-move-leaver” process).

Invite additional users to teams with particular roles. Invitations based on inviters role and cascading privileges.

Users can be added with alias email addresses, as silent (so not receive any email notifications) and as unlicensed users (who can be managed in the system but not login themselves).

Users can use their alias email address as the login username.

View all users in one report.

Manage profile of your teams' users

Augment dashboards with additional user info

Tree depth

Configure amount of information shown to each user by team level.

This is useful if certain users don't want to be overloaded with low-level data.

For example, in an organisation with 7 levels - if CEO tree depth equals 3, CEO will only see Level 1, 2 and 3 information.

Reminders

The system sends automatic reminders, including optionally escalating to managers.

kippy Support 2 October 2021 at 13:02 S

Reminder
To: nauman.khan@thesolutioncrowd.com

Reminder

Please update last months actuals for the following items

Team	Project Milestone or KPI	Name
CEO	KPI	Invite new prospects

[Log in](#)

Click here to [unsubscribe](#) from these emails.

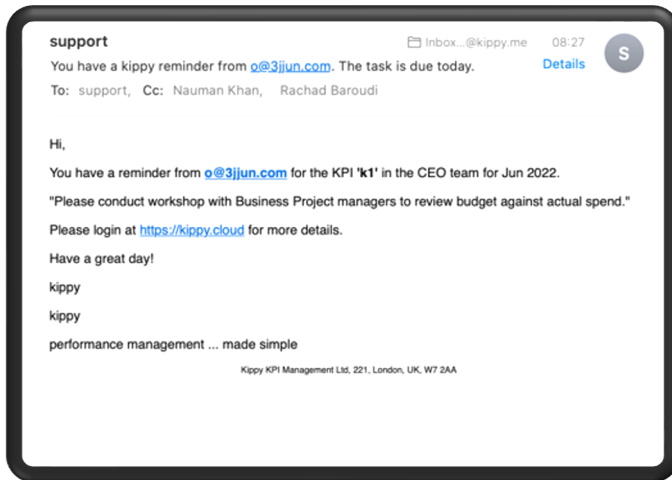

Kippy KPI Management Ltd, 221, London, UK, W7 5AA

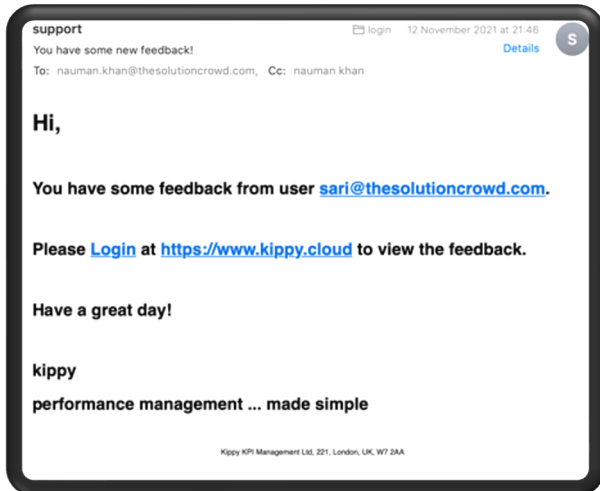

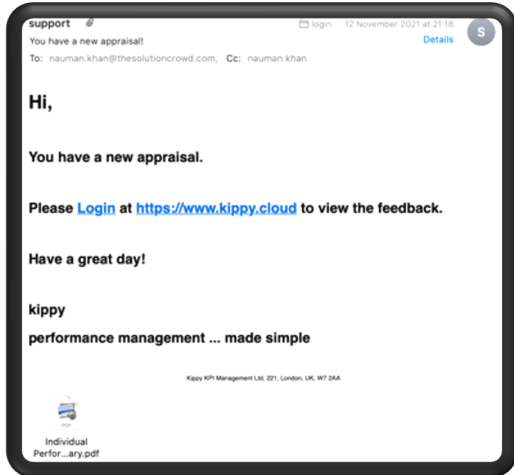

Notifications

By default, the system sends employees email notifications in numerous scenarios, including:

- Late or overdue actual submissions
- Reminders of tasks based on reminder dates and due dates
- Draft KPIs needing approval
- Approved KPIs needing update
- Self-appraisals to managers
- Appraisals by managers
- Notes attached to KPIs and Projects of interest to the employee
- Feedback received

Each user can also set a “Silent mode” in their user profile, so they do not receive kippy notification emails.

Hosting options

All this provides a solution that is:

- A flexible appraisal mechanism for all staff, at any cadence, fully aligning everything top-down and bottom-up
- An always live view of corporate health by every dimension with data accuracy
- A low-friction framework for continuous improvement

From a technical perspective, kippy is unique in that it does NOT provide a rigid Commercial off-the-shelf product.

Instead, a totally standalone kippy instance will be deployed to a cloud or infrastructure of your choosing.

As well as configuration of the capabilities, the code for the core product will be branched just for you, allowing any low-level changes to be made specifically for you.

Other SaaS providers have one product for all their clients. They usually segment the data - but the app and features remain identical for all clients. A one-size fits all solution!

Other SaaS solutions

What does that mean for you? You have to put your requirements in a shared backlog for all your clients. You have to wait for the next major release. You have to do workarounds in your business processes to fit the constraints of their product.

What approach does kippy take? We deploy your very own isolated instance. We create bespoke functionality to perfectly fit your needs (and then later putting them behind feature switches for everyone else).

What does this mean for you? You don't have to put your requirements in a shared backlog for all our clients. You don't have to wait for our next major release. You don't have to do workarounds in your business processes to fit our product.

kippy cloud solution

Web APIs

This isolation increases agility, and so do the kippy web APIs. Every activity in the kippy user interfaces can also be performed by invoking simple web APIs, so information can be automatically pushed and pulled from and to any system.

What does this mean for you? You can easily pull in employee performance for a specific set of KPIs from any tool or system used in your organisation. You can push any appraisal, discussion, report, etc. to any other tool or system used in your organisation.

More details on the APIs available here <https://www.kippy.cloud/api>

Functions

Pull and transform data without coding or support from IT. Dynamically set your actuals by referencing other KPIs with functions like add, subtract, multiply, divide, percentage and average.

Need a new function or adapter, we'll make it for you. Want to code your own, we'll host it for you. Want to host it yourself, we'll call it as needed. Want to push the values, call our APIs. Whatever your use case, we've got you covered!

Microapps

No matter how great a dashboard, report or app user interface is, it will never be perfect for every persona, in every company, in every situation.

Kippy comes with great user interfaces by default, but also lets you create user specific micro-apps with custom reports and dashboards, geared exclusively to a particular person, for a specific use case, just for your organisation.

So don't just use your tools, love them!

Dedicated environments

Need one or more non-prod environments? Spin up as many non-prod environments as you need - in minutes!

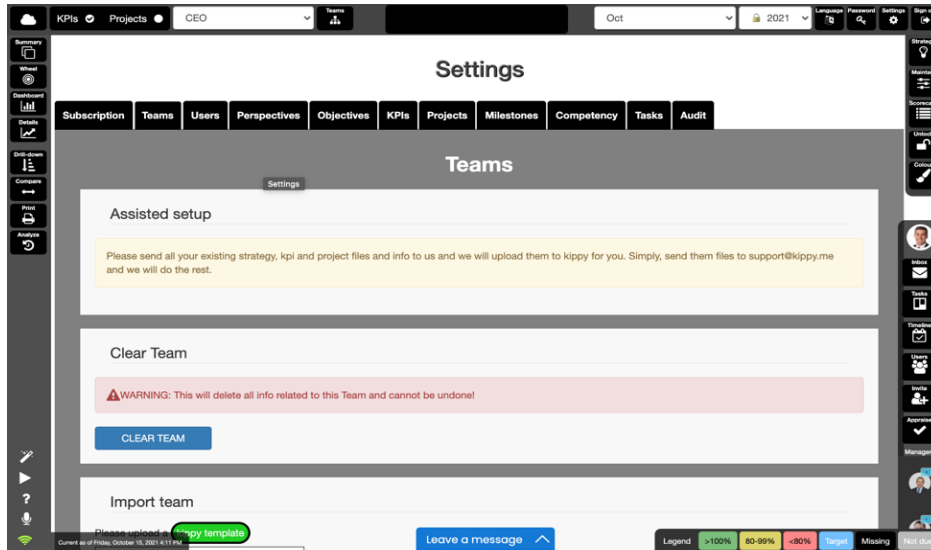

Your Kippy instance can be deployed to

- the shared Google Cloud (in London),
- in other Google Cloud AppEngine instances around the world,
- on other cloud providers,
- on your hosting partners infrastructure
- on your own infrastructure

Your kippy instance can also be deployed with different configurations for high-resilience and failover.

Fully configurable

Everything in kippy is self-configurable via the in-built admin console.

This includes

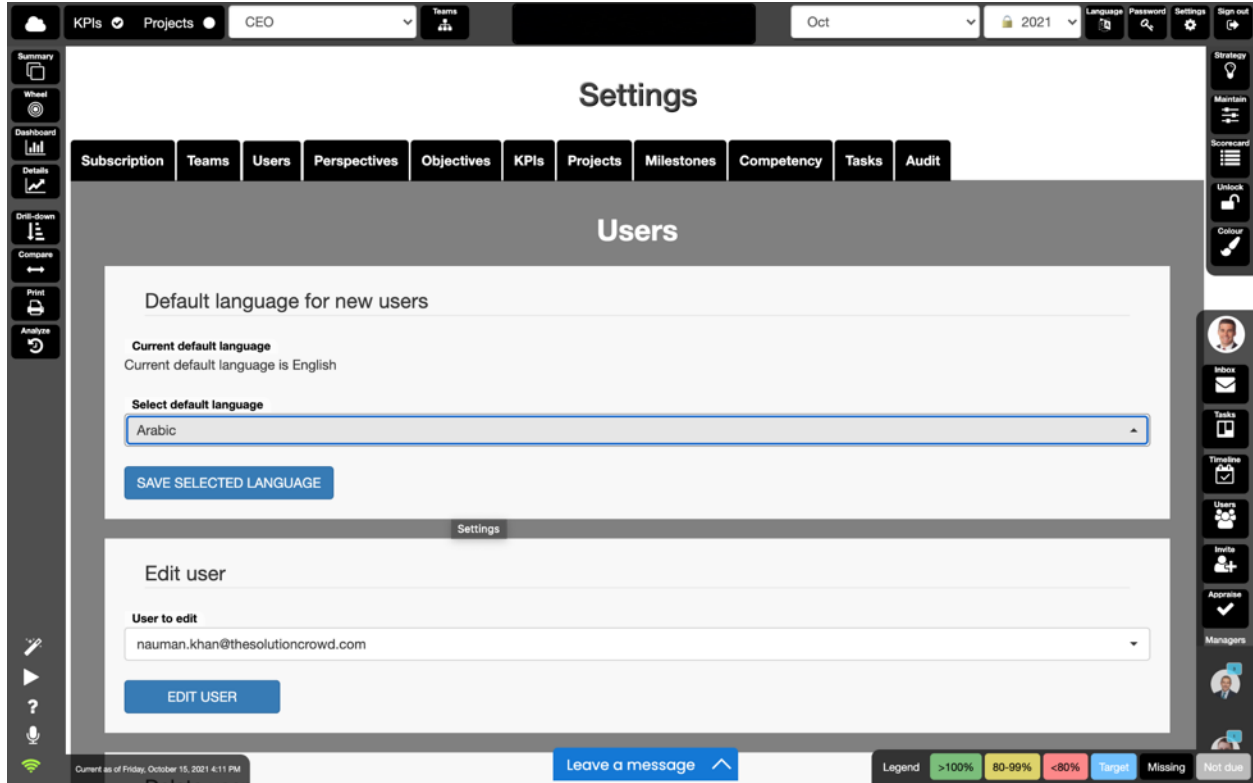

- changing 1x,2x,3x to greater than 3 (e.g. 1x to 100x)
- locking appraisals
- complex weighting and score calculation configuration
- changing default language and color themes
- resetting passwords
- full user management
- edit, rename, move and delete perspectives, objectives, KPIs, projects and milestones
- appraisal competencies with descriptions and weighting
- feedback criteria
- temporarily disabling appraisals for the whole organisation
- workflow of task Kanban columns
- no-code system-to-system integration (see Wrike demo, JD Edwards demo, Microsoft Dynamics 365 demo)
- the list of values in each competency drop down in the appraisal screen
- set new KPIs, objectives, projects to be inactive by default for previous years
- modifying the start of org reporting cycle e.g. 'January to December' becomes 'April to next March'.
- restrict all KPI scores between 0 and 100.
- set the upper and lower bound of that restriction for all KPIs (i.e. from 0 and 100 to other numbers)
- change the days after month reminders should be sent on
- set the days that reminders should also be escalated to the KPI/KR owners manager
- change the score thresholds for the RAG (red amber green) status for KPIs and Projects

- allow managers to quick set up
- ensure managers set appraisal notes before saving appraisal
- allow full unlock of the system whilst setup is being completed
- calculating non-cumulative KPI/OKR scores on the last score vs the average of the scores that year to date.

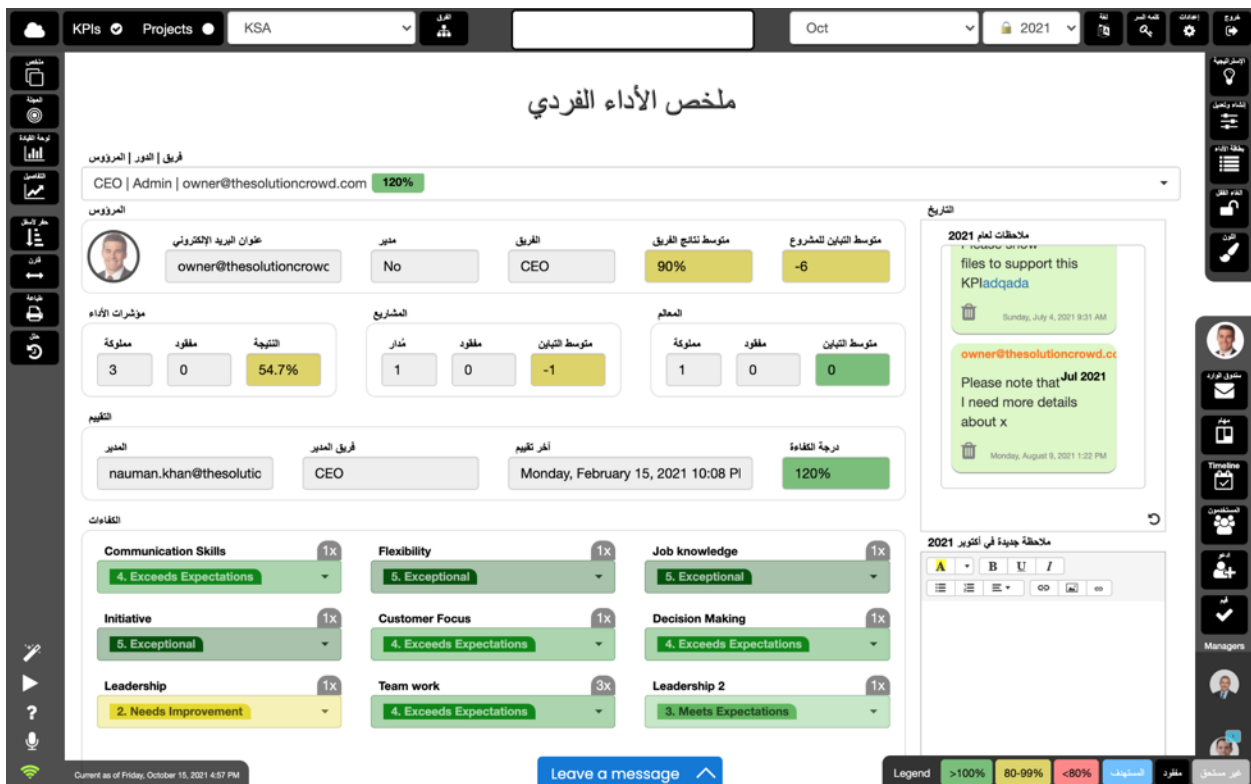

Multi-language

Kippy is available in over 100+ languages, including English and Arabic. The language can be defaulted to the whole organisation. Plus, each user can flip between languages as needed.

All screens and help have already been translated to Arabic and verified by a native Arabic speaker.

Nauman

Hi, Please let me know if you have any questions or need any help getting set up.
Thanks, Nauman

Type your message here...

Personalisations

The system comes with multiple configurable colour themes. Users can personalize colours.

Set user profiles or let users self manage.

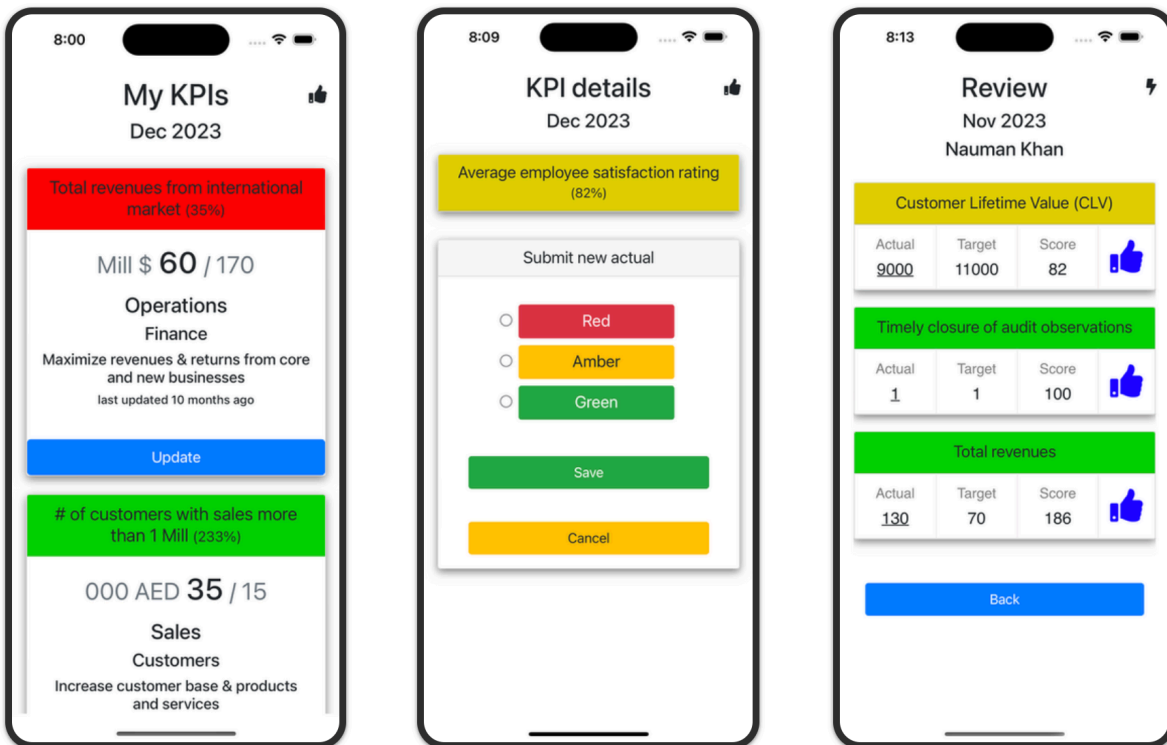

Mobile responsive

All screens are mobile-responsive, scale up and down with browser zoom and are optimized for smartphones, tablets, laptops, desktops and extra large screens for presentations and dashboards. Available on iPhone and Android. All browsers supported.

Mobile app

Download the iPhone app from the Apple AppStore for a quick and easy way for staff to submit due KPI actuals and managers to review them.

Navigation

Voice control

Change screens using your microphone.

Kippy - Voice Commands - Cheat Sheet Click the microphone icon and clearly say one of the commands below.

Helpful phrases What can i say What can i ask Open quick start How to Help	View screen Dashboard Executive summary Wheel Scorecard Compare Analyse Print Show teams View users	Personalize Logo Profile picture Password Background colour
KPIs and Projects Show <kpi name> Show <project name> Next Previous Create new KPI Create new project Maintain Projects mode Kpi mode	Change view Change the reporting period to <month> Show next year Show previous year Go to <team name> team	Admin commands Show the audit Unlock plans and actuals Or, say 'Settings for' followed by : Teams Users Perspectives Objectives KPIs Projects Milestones
Invite colleagues invite user	Voice commands only work on Google Chrome – which will ask 'to use the microphone'.	After a prolonged period of silence, the mic will automatically turn off.

Keyboard shortcuts

Shortcut to screens by pressing Shift and Function keys:

- F1 Strategy
- F2 Teams
- F3 Summary
- F4 Wheel
- F5 Dashboard
- F6 Scorecard
- F7 Details
- F8 Maintain
- F9 Drill down
- F10 Inbox
- F11 Tasks
- F12 Timeline

Tactile dashboards

Re-size dashboards and graphs by double-clicking, dragging, mouse wheel for zoom, etc.

Customisations

The system is integrated with OAuth2.0 identity mechanisms (including Google Login and Slack Login) and can be easily integrated with Microsoft Active Directory.

The system is integrated with SendGrid for emails and can be easily integrated to include notifications via SMS and other email servers including Exchange.

The system is horizontally scalable (without limit) on Cloud infrastructure with automatic upscaling and downscaling of resources based on user demand.

As well as building adapters and interacting with web APIs, it is also an option to buy a licensed copy of the source code and extend the product with your own internal technology teams, without or without help from the kippy build team.

Various documented use cases are available for interacting with external and internal Enterprise systems such as Sharepoint, Microsoft Team Foundation Server, Trello, Google Sheets, Google Translate, Slack and Zapier - which can be used to easily connect to Oracle ERP and other business intelligence tools.

Online assisted and non-assisted courses are already available on kippy methodology and tooling for users and admins, in English and Arabic. On-premise training is available.

Detailed use cases available on www.kippy.cloud for using web APIs for data exports.

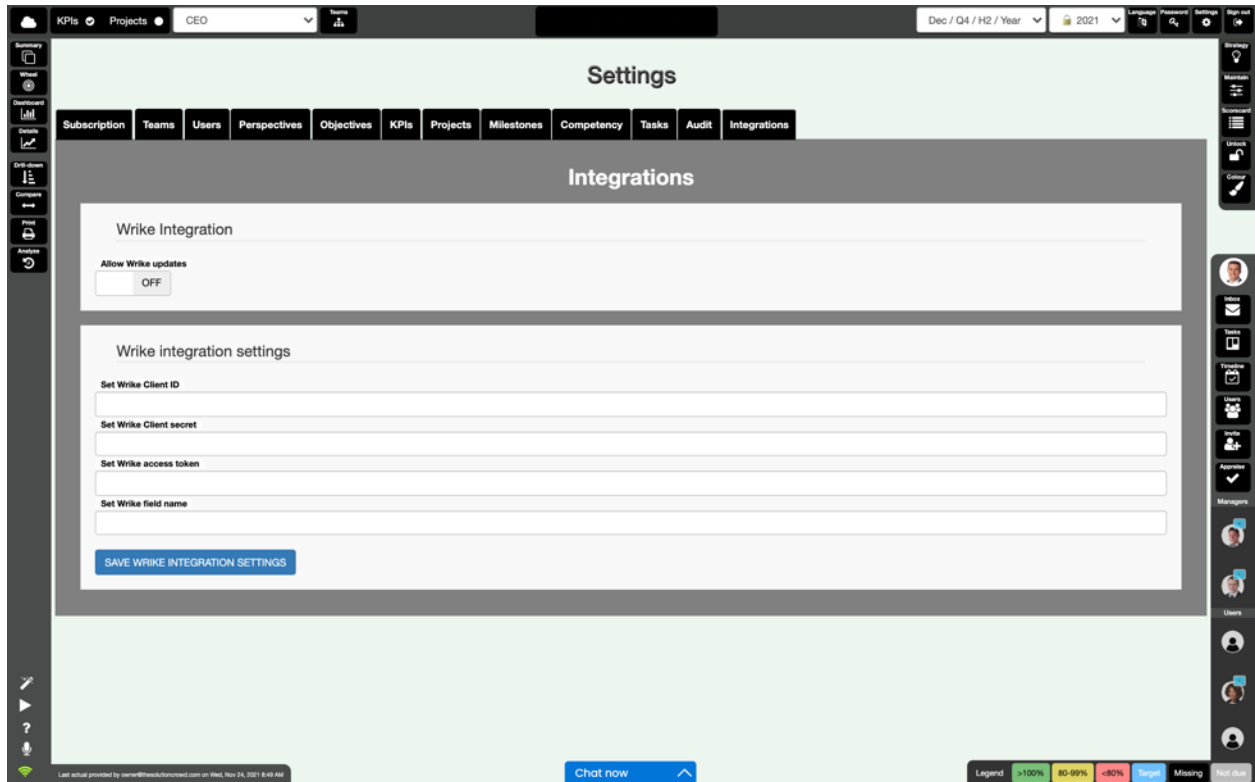

<https://www.kippy.cloud/web-api-integration-with-sharepoint>

<https://www.kippy.cloud/automate-your-business-processes>

<https://www.kippy.cloud/system-to-system-updates>

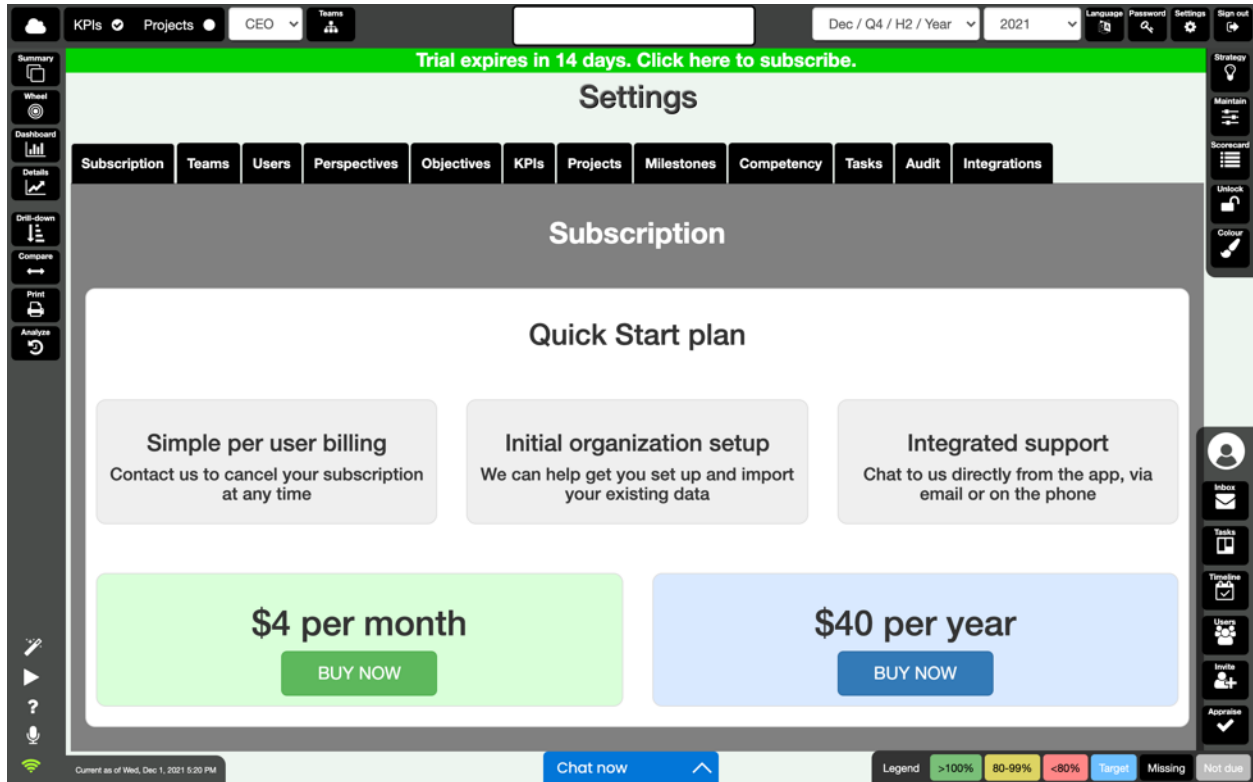

Built-in integrations

Several configurable integrations are already built-in, and can be enabled for our Enterprise customers. Please get in touch to learn more.

Billing

Subscribe in-app with simple per user billing (monthly or annually).

Invoice based billing available for bulk and enterprise usage.

Security

- We will not share your data with anyone EVER!
- Kippy Cloud is hosted on Google Cloud Engine in the zone europe-west2, with access extremely restricted - no data is stored on any other physical servers. Please visit <https://cloud.google.com/compute/> for more information
- All data is encrypted in transit and at rest.
- KPI performs regular security and vulnerability audits, checks and monitoring.
- Identity and integration is always done, at a minimum, using OAuth2.0 authentication and https.
- All data is encrypted with the encryption keys stored securely. In the case of a breach, we will notify the affected parties. Customers SOC integration can also be configured upon request.
- Similar principles would be applied for customized hosting.
- KPI Cloud is built with multi-tenancy from the ground up, so your data is segregated at all tiers, ensuring only you can see your data.
- Access to data is further restricted by role-based access controls within your organisation and teams - ensuring users can not unintentionally see each other's data.
- If you stop your subscription, kippy will change your access to read-only for a period of 90 days, during which you will not be able to change your data, but can re-join at any time. After this period, all your data will be hard deleted from kippy.
- You may request a full dump of your data and audit history at any time. Data will be provided via RESTFUL JSON endpoints or via an encrypted zip of JSON files, made available for secure download.
- KPI Cloud is built with multi-tenancy from the ground up, so your data is segregated at all tiers, ensuring only you can see your data.
- Access to data is further restricted by role-based access controls within your organisation and teams - ensuring users can not unintentionally see each other's data.
- End-of-contract data extraction - All the users data is available to the user via the web APIs at any time. All kippy data is regularly backed up. However, users are also encouraged to take extracts of their data for backups or local integrations as often as they choose.
- Kippy is fully functional on all modern browsers. Google Chrome is the recommended browser. No application to install. Designed for use on mobile devices.
- The service interface is part of the application but only available to users with the appropriate role. The interface allows the user to self-serve any maintenance activities - including adding, renaming, deleting, moving all data objects. All activities are fully audited and follow governance rules to ensure system integrity. The service interface is only available to the appropriate system user, who can a) view the audit log to be viewed b) bulk import existing KPI data c) delete users from the system.

- Kippy is designed to ensure there is practically no usage based impact across users because:
 - - most complex processing is done in the client's browser and not on the kippy servers.
 - - hosting provides rate limiting and DDOS protection
 - - sophisticated caching refreshes in low-priority background jobs
 - - sophisticated auto scaling-up of underlying hosting resource to over 1000 times typical load (which auto scales-down to reduce cost)
- Staff security clearance - Conforms to UK standard BS7858:2012 and Developed Vetting (DV) and OWASP
- Default Data storage and processing locations. United Kingdom. Other hosting options available.
- Data Centre security standards - CSA CCM version 3.0
- Penetration testing frequency - At least once a year. Additional Pen Testing available upon requests.
- Protecting data at rest - Physical access control, complying with CSA CCM v3.0. Physical access control, complying with SSAE-16 / ISAE 3402. Scale, obfuscating techniques, or data storage sharding.
- Data export approach - Users can call kippy's secure web APIs (with the appropriate authentication credentials) to extract all their current and historical data in JSON format. Other data import formats - MS Excel template to collect and bulk upload existing info. Updates can be submitted using RESTFUL/JSON web API calls. No other system ingress or egress channels to data exposed.
- Data protection between buyer and supplier networks and Data protection within supplier network - TLS (version 1.2 or above)
- Approach to resilience - Multi-availability zone replication. Auto-scaling. Automated testing. Canary releases. Production Monitoring
- All configuration is managed with Infrastructure as code (IaC) principles. All code is managed in a private GitHub repository. All changes are reviewed with a formal Architecture design process with formal design documents. All builds and releases are tracked in the CI/CD pipelines. All releases are security and vulnerability scanned.
- Change management processes ensure all releases are a) released outside of business hours b) tested in a Stage production-like environment and c) canary-released before full roll out. API iteration is tracked through semantic versioning.
- Vulnerability management approach Each release is scanned using Google Cloud Web Security Scanner. Security fixes are given highest priority by the in-house development team. Patches can be deployed via the CI/CD pipelines within a minute.

Extensions

The final key point is that if the needed feature or mechanism is not clearly articulated in the proposed solution, Kippy should not be viewed as a closed and unchangeable platform.

The upfront investment of making kippy a modern cloud-based solution, with the latest modern development practices, means it is incredibly flexible and extensible - allowing quick and easy customisation to your exact needs.

Whether that be specific workflows, complex business rules, new features or deep integrations. The intention is to use the project discovery phase to identify those exact needs and configure and customize to the exact detailed end user requirements.

Contact us at info@kippy.cloud to learn more
